Accept cases of self-Defense, homeland defense or offensive defense operations. This handbook nor its authors advocate for unnecessary violence, unlawful acts,or especially VIGILANTE type justice or activity unless there is NO lawful body of court in which to hold a fair trial of the subject.

THINKING THE WAY OUR COUNTRY ALWAYS HAS, WHEN FACING ADVERSARIES, KILLING OUR PEOPLE, ZERO ACCOUNTABILITY, ASSAULTING OUR FREEDOM & LIBERTIES. MANIFESTING OUR DESTINY IN PRAYERS/MOTTOS/SLOGANS.

US ARMY -"Rangers Lead the Way!"

AJROTC-"Leadership Excellence".
USAFA-"Semper Vigilans"-Latin for **"Always Vigilant"**

USMC-"Semper Fidelis" (Latin for "Always Faithful").

Army-"This We'll Defend". This phrase has defined the branch since 1778.

Air Force: "Aim High... Fly-Fight-Win".

Navy-"Non Sibi Sed Patriae" (Unofficial Latin for **"Not for self, but for country"**). The operational motto **"Semper Fortis"** ("Always Courageous")

USAJFKSWCS (JFK Spec-War Center and School): "Veritas et Libertas" (Latin for **"Truth and Freedom"**).

NSA-DICERE VERUM-"to tell the truth"

DELTA-Sine Pari (Without Equal)

1ST-GRP-"Ubique Sed Nusquam" (Latin for "Everywhere, Yet Nowhere") (58-64)*ISA-Veritas Omnia Vincula Vincit* (Latin for "Truth Overcomes All Bonds").

Force Recon (Marine): "Celer, Silens, Mortalis" (Latin for **"Swift, Silent, Deadly"**).

(Marine Raiders): "Spiritus Invictus" (Latin for **"Unconquerable Spirit"**).
Navy SEALs: "The Only Easy Day Was Yesterday". Their official operational creed also stresses: **"Ready to Lead, Ready to Follow, Never Quit."**

The official motto of the **US Coast Guard** is **"Semper Paratus"**, which translates from Latin to **"Always Ready"**.

1st Armored Division ("Old Ironsides"): "Iron Soldiers" WARCRY

1st Cavalry Division (Viet / Airmobile): "First Team" and **"Live the Legend"**.

TRADOC (U.S. Army Training and Doctrine Command): "Victory Starts Here".

INSCOM (U.S. Army Intelligence and Security Command): "Our Power lies in Our Knowledge" -AKA Semper Vigili

The second list traces **25 revolutionary mottos, slogans, and war cries** from the earliest American militias, colonial defense units, and partisan groups—beginning with the Sons of Liberty in 1765 through the peak of the Revolutionary War in 1781. Because formal bureaucratic military mottos did not exist in the 1700s, these militias declared their purpose via battle cries and slogans stitched onto regimental flags. [1, 2, 3, 4, 5]

The Early Rebellion & Protest Groups (1765–1774)

- **1. Sons of Liberty (Boston/New York): "No Taxation Without Representation"**. The founding slogan against British economic policies.
- **2. The Loyal Nine (Boston pre-Sons of Liberty): "Liberty, Property, and No Stamps"**. Used during the 1765 Stamp Act riots.
- **3. Regulators of North Carolina: "To Fly from Oppression to Despair"**. An early backcountry militia resisting colonial corruption.
- **4. Green Mountain Boys (Vermont Militia): "In the Name of the Great Jehovah and the Continental Congress"**. Ethan Allen's battle cry when capturing Fort Ticonderoga. [1, 2, 3, 4]

The Outbreak of War & Lexington/Concord (1774–1775)

- **5. Lexington Minutemen (Massachusetts): "If They Mean to Have a War, Let It Begin Here"**. Captain John Parker's orders on Lexington Green. [1, 2, 3, 4, 5]
- **6. Concord Minutemen (Massachusetts): "Defend Your Native Rights"**. The rallying cry at the Old North Bridge. [1]
- **7. Bedford Militia (Massachusetts): "Vince Aut Morire"**. Latin for **"Conquer or Die"**; flown on the oldest surviving American militia flag. [1, 2, 3]
- **8. Virginia Militia (Patrick Henry's Rally): "Give Me Liberty, or Give Me Death!"** The fiery speech that mobilized the entire colony's defense. [1]

The Sovereign County & Regional Militias (1775)

- **9. Culpeper Minutemen (Virginia): "Liberty or Death"** (and **"Don't Tread on Me"**). Emblazoned across their famous rattlesnake flag.
- **10. Hanover Associates (Pennsylvania Militia): "Liberty or Death"**. Vowed to resist Great Britain "at the expense of life and fortune."

- **11. Westmoreland County Battalion (Pennsylvania): "Don't Tread on Me"**. Used on John Proctor's 1st Battalion flag featuring a coiled rattlesnake.
- **12. Richmond County Militia (Virginia): "Dieu et Mon Droit" (Crossed Out) / "Liberty"**. They literally scratched out the King's motto on their gear.
- **13. Mecklenburg Militia (North Carolina): "Independence Forever"**. Associated with the Mecklenburg Declaration of May 1775. [1, 2]

The Revolutionary Flag & Regimental Standards (1775–1776)

- **14. Washington's Life Guard (Commander-in-Chief's Guard): "Conquere or Die"**. The elite personal security militia for George Washington.
- **15. Washington's Cruiser Militias (Sec. of Fleet): "An Appeal to Heaven"**. Flown by the Massachusetts state navy and maritime militias.
- **16. Gadsden's Continental Marines/Militia: "Don't Tread on Me"**. The universal warning against British encroachment.
- **17. 1st Pennsylvania Regiment (Thompson's Riflemen): "Domari Nolo"**. Latin for **"I Refuse to be Subjugated"** (depicting a tiger escaping a net).
- **18. 2nd New Hampshire Militia: "The Glory, Not the Prey"**. Stressed fighting for honor and liberty rather than plunder or spoils.
- **19. 3rd New York Regiment: "Constitution and Liberty"**. Mobilized to protect colonial charters.
- **20. Moultrie Militia / 2nd South Carolina: "Liberty"**. Stitched onto the crescent moon flag that flew over Fort Sullivan. [1, 2, 3]

The Southern Campaigns & Guerrilla Units (1776–1781)

- **21. Morgan’s Riflemen (Provisional Rifle Corps): "XI Virginia Regiment / Liberty or Death"**. Daniel Morgan's sharpshooters.
- **22. Marion's Partisans (The Swamp Fox Militia): "Liberty or Death"**. Francis Marion's irregular guerrilla force in South Carolina.
- **23. Overmountain Men (Appalachian Frontier Militia): "The Sword of the Lord and of Gideon!"** The frontier battle cry used to smash the Loyalists at the Battle of Kings Mountain.
- **24. Haslet’s Delaware Blues (Delaware Regiment): "Liberty and Independence"**. Known as the best-equipped and disciplined early militia.
- **25. 1st Maryland Regiment: "No Retreating Footsteps"**. Earned at the Battle of Cowpens, cementing their legacy as the "Old Line." [1, 2]

HISTORY-TAX

Restoring a common "Perspective of Reality" among rank and file Americans is the first step to initiating a peaceful political paradigm shift that restores control to the natural majority of American citizens.

America's "Tyrant Class" uses the 2 major political parties to create 2 opposing groups of Americans with 2 different perspectives of reality. Without a common perspective of reality, the American masses are easily "divided and conquered" over various issues. Being thus divided, the American masses cannot unite to stop the Tyrant Class from further exploiting them.

The best way to restore a common perspective of reality to the American masses is to restore knowledge of Natural Law, upon which our country is founded, to the American Public Sphere. John Locke's Second Treatise of Civil Government is a great place to begin learning about Natural Law.

UNITE, or DIE.

STAMP

TREASON

Any person who levies war against the United States or adheres to its enemies by giving them Aid and Comfort has committed treason within the meaning of the Constitution. The term aid and comfort refers to any act that manifests a betrayal of allegiance to the United States, such as furnishing enemies with arms, troops, transportation, shelter, or classified information. If a subversive act has any tendency to weaken the power of the United States to attack or resist its enemies, aid and comfort has been given.

INTRODUCTION

Globalism is a replacement ideology that seeks to reorder the world into one singular, planetary Unistate, ruled by the globalist elite. The globalist war on nation-states cannot succeed without collapsing the United States of America. The long-term strategic attack plan moves America incrementally from constitutional republic to socialism to globalism to feudalism. The tactical attack plan uses asymmetric psychological and informational warfare to destabilize Americans and drive society out of objective reality into the madness of subjective reality. America's children are the primary target of the globalist predators.

Globalists recognize neither individual nor national sovereignty. Globalism's planetary Unistate will be one-world population, one-world nation, one-world government, one-world language, one-world currency, one-world bank, one-world culture, one-world customs, one-world ethics, one-world morality, one-world norms, one-world court, one-world laws, and one-world military police enforcing one-world compliance.

These un-elected criminal globalist organizations need to be abolished and banned
UNITED NATIONS
World Health Organization
INTERNATIONAL MONETARY FUND
WORLD ECONOMIC FORUM
COMMITTED TO IMPROVING THE STATE OF THE WORLD

Marxism and globalism are both replacement ideologies. The Marxist strategy for ideological conversion relies on regressing chronological adults back to childish thinking through fear, and weaponizing education to indoctrinate children in collectivism as young as possible. The globalist strategy for world domination exploits the Marxist strategy to clear the path for the globalist Unistate.

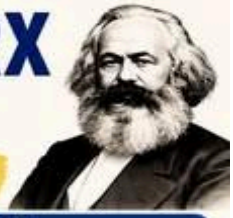
The 10 Points of Marx's Communist Manifesto
How many have been adopted by American politicians?
1. Abolition of property and land and application of all rents of land to public purposes
2. A heavy progressive or graduated income tax
3. Abolition of all right to inheritance
4. Confiscation of all property of all emigrants and rebels
5. Centralisation of credit in the hands of the state, by means of a national bank with State capital and an exclusive monopoly.
6.Centraliztion of the means of communication and transport in the hands of the state.
7. Extension of factories and instruments of production owned by the State, the bringing of cultivation of waste-lands, and the improvement of the soil generally in accordance with a common plan.
8. Equal liability of label. Establishment of industrial armies, especially for agriculture.
9. Combination of agriculture with manufacturing; gradual abolition of the distinction between town and country, by a more equitable distribution of the population over the country,
10. Free education for all children in public schools. Abolition of children's factory labor in its present form. Combination with education and industrial production.
When we adopt all these concepts, we will have successfully transitioned from capitalism to socialism and then to communism.
AWAKEN
TO OUR AWFUL SITUATION

GRAMSCI VS. MARX

CONFLICT THEORY



Both believe society is based on power and inequality, but they see change differently.

ASPECT	GRAMSCI	MARX
FOCUS	Focuses on **CULTURE** and **IDEAS**.	Focuses on **ECONOMY** and **MATERIAL CONDITIONS**.
SOURCE OF DOMINATION	Domination is maintained through **IDEAS, VALUES** and **CULTURAL LEADERSHIP**.	Domination is maintained through **CONTROL OF THE MEANS OF PRODUCTION**.
HOW POWER IS MAINTAINED	Through **HEGEMONY** – ruling class wins consent by spreading its ideas as "common sense".	Through **FORCE** and **CONTROL** of economic resources and the state.
ROLE OF THE WORKING CLASS	Workers must build **COUNTER-HEGEMONY** – challenge dominant ideas and win people's consent.	Workers become class conscious of exploitation and unite in **REVOLUTION**.
PATH TO CHANGE	**Gradual** and long-term struggle in the areas of culture, education, media, institutions.	Through **REVOLUTION** – overthrow of the capitalist system.
ROLE OF THE STATE	State = Political society + **Civil society**. Civil society (schools, media, religion, family, etc.) is key to maintaining rule.	State is an **instrument of the dominant class** to protect their economic interests.
VIEW OF SOCIETY	Complex and shaped by **culture, ideas, and consent**.	Based on **class conflict** arising from economic relations.

IN ONE LINE Gramsci says power is maintained through **ideas** and **consent (hegemony)** and change is **gradual**, while **Marx** says power is maintained through **economic control** and change comes through **revolution**.

THE MOST DANGEROUS EXPERIMENTS EVER DONE

BRAVE SCIENTISTS. QUESTIONABLE ETHICS. TERRIFYING CONSEQUENCES.
THE PURSUIT OF KNOWLEDGE SOMETIMES CROSSES A LINE.

1 SOVIET UNION – POISON GAS TESTS
1940s–1950s

Thousands of people, including prisoners and psychiatric patients, were exposed to poison gases like mustard gas to test their effects and "immunity."

WHY DANGEROUS?
Caused excruciating deaths, long-term suffering, and violated every moral boundary.

2 UNITED STATES – PROJECT MK-ULTRA
1953–1973

The CIA secretly conducted experiments on unwitting people using drugs (like LSD), hypnosis, isolation, and torture to develop mind control techniques.

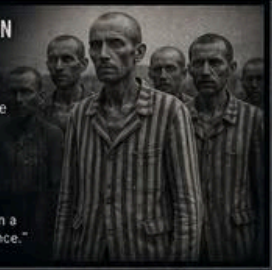
WHY DANGEROUS?
Destroyed lives, caused mental breakdowns, and was a massive abuse of power.

3 UNITED STATES – TUSKEGEE SYPHILIS STUDY
1932–1972

Over 600 African American men with syphilis were deliberately left untreated so doctors could study the progression of the disease.

WHY DANGEROUS?
Men suffered, infected others, and some died— all for data that violated basic human rights.

4 GERMANY – NAZI HUMAN EXPERIMENTATION
1939–1945



Prisoners in concentration camps were subjected to horrific experiments— freezing, high-altitude, seawater drinking, sterility tests, and more.

WHY DANGEROUS?
Unimaginable torture and death on a mass scale in the name of "science."

5 CHERNOBYL DISASTER (CONTROL ROOM TEST)
1986

A dangerous experiment was conducted on a nuclear reactor to test power responses. It triggered a catastrophic explosion and meltdown.

WHY DANGEROUS?
Caused thousands of deaths, massive radiation exposure, and a long-lasting environmental disaster.

6 JAPAN – UNIT 731
1930s–1945

Japanese scientists performed horrific experiments on humans, including vivisection, organ removal, and plague testing.

WHY DANGEROUS?
Extreme cruelty and suffering; many methods were never seen before or since.

7 UNITED STATES – RADIUM GIRLS
1910s–1920s

Young women were told to paint watch dials with radium-laced paint. They were encouraged to "lip-point" brushes, leading to radiation poisoning and death.

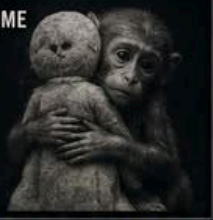
WHY DANGEROUS?
Companies knew the risks but ignored them, sacrificing lives for profit.

8 THE PHILADELPHIA EXPERIMENT
1943 (ALLEGED)

Allegedly, the U.S. Navy attempted to make a ship invisible using electromagnetic fields. The experiment supposedly caused crewnembers to disappear, go insane, or fuse with the ship.

WHY DANGEROUS?
If real, it pushed the limits of science with unknown, terrifying effects.

9 MONKEY WHITE COAT SYNDROME
1960s–1970s



Monkeys were raised in isolation with cloth "mother" figures instead of real mothers to study the effects of emotional deprivation.

WHY DANGEROUS?
Caused severe psychological damage, self-harm, and abnormal behaviors.

10 STANFORD PRISON EXPERIMENT
1971

Students were assigned random roles as "guards" or "prisoners" in a fake prison to study psychological effects of power and control.

WHY DANGEROUS?
Psychological trauma, emotional distress, and loss of identity for participants.

SCIENCE WITHOUT ETHICS CAN DESTROY LIVES.

KNOWLEDGE IS POWER—BUT RESPONSIBILITY IS HUMANITY.

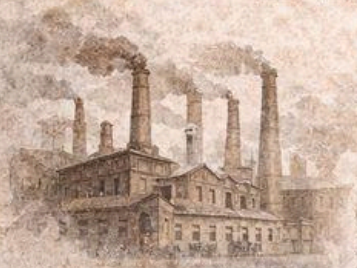
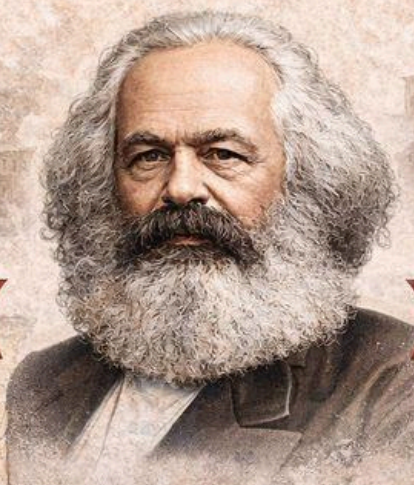
Philosophy





Historical Materialism

The idea that economic material conditions shape society, politics, and ideas.

Class Struggle

The ongoing conflict between the bourgeoisie (capitalist class) and the proletariat (working class).

Class Struggle

The ongoing conflict between the bourgeoisie (capitalist class) and the proletariat

Alienation

The sense of isolation and powerlessness workers feel when exploited by capitalism.

Communism

A classless, stateless society where the means of production are collectively owned.

Workers of the World, Unite!

Marx advocated for the working class to overthrow capitalist systems to end exploitation and create an equal society.

If For Some Reason This Concept Is Far Fetched Then You May Have A Problem. (Stop Reading-Burn This Document- Read Some Other Shit On The Internet.)

The **Blm** Movement Was Not Actually Created For The Black Community To Unite And Make A big Point. It Was A Marxist 'Operation' Backed By The Ccp, To Exploit, To Gather And Use A Whole Community 'collective', I.E Working Class, To Cause A Planned Media Covered Uprising (color revolution), Funded by citizens, Leftist USAID-Obama,, By Use Of An Awaited And selected 'racially' Based, Polarizing narrative driven Catalyst (Topic) (US Police/Authority) Such As Polarizing Floyd's Death For Direct Effect (**Coupled With Force-Multiplier Of Social Media**) To Undermine The **United States** And **Donald Trump.**

The enemy border penetration has already passed-Relative To War The current situation involving the enemy's infiltration across the borders has already escalated. Two National Guardsmen Were Shot While Pulling Guard Duty In The U.S Capitol, Saw A Rash Of Four Jihadi Attacks In The Same Time-Frame. The Other Fear Is That They Don't Complete The Large Attack, Instead Consistent Single Attacks Ensure This complex scenario is framed by a conflict between the typical American patriot and the foreign proxy entities that have been strategically placed on U.S. territory. Unfortunately, within this context, there exists a troubling possibility for conflicts akin to civil war. These are potentially ignited by groups such as the anarchist factions

linked to Marxist ideologies, who are collaborating with both Islamo-fascist elements and Islamist jihadists—encompassing both Sunni and Shia sects—united against Western cultural norms and values. Furthermore, an additional layer of concern is presented by the recent deployment of approximately 50,000 operatives or soldiers from the Chinese Communist Party (CCP) on American soil, complicating the national security landscape significantly.

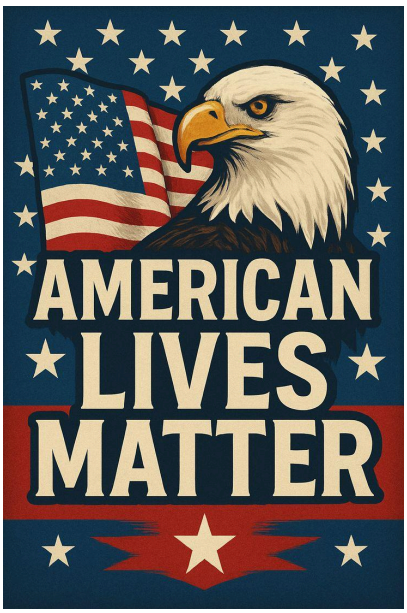
A Nations Battle For Survival Of A Free People, A Republic And Struggle To Maintain Our God Given Unalienable Rights, To Maintain Adherence To The Constitution Justice For All, Its Principles, Sovereignty And Right To Worship Your God. We Must Inherently Choose Where Exactly Our Loyalties Fall. Loyalties Abound Only Three Matter at this juncture in American history, this second (2nd) day of July, in the year of two thousand (02 july 2026) twenty-six: God, Family ,Country.

Not In That Order, We Choose Our Own Countryman Before A Foreigner To This Land, Because Generally Speaking We Used To Agree On The The Basic Fundamentals, Even Though We Don't Agree On Those Fundamentals Anymore As The Left Seems To Embrace Marxism At Every Turn, I'd Still Back An American Marxist To A Degree Over An Iranian Quds-Force Family Member (Or Encourage Destruction Of Each Other). We Choose Our Own Blood Whenever Possible Except When Principles Combat Issues Like Nepotism, We Choose The Devoted Law Abiding Citizen Who Is Likeminded, Loyal To His Family, Friends And Country, A Good Spirited And Hearted Person, Patriotic Warrior, Silent Warriors, Children Of God Sometimes They Devoutly Echo Christian/Religious Beliefs In Abundance. But That's Ok, Because Everyone Knows A Christian Will Highly Likely Not Hurt You Or Treat You With Malice (Sometimes Pushovers).

They Will Feed And Clothe You If They Can. A Christian Will Give The Shirt Off His Back In A Heart Beat And Ask Nothing In Return. In All Its Glory My Religion, That Of God Allows For Zelots And Occults To Walk All Over, Smear, Obusifcate The Word Of God And Islamist And Jiadist To Rape And Murder Its Followers Specifically Because We Do Not Believe In Their Allah And Muhhamad Stuff. However That Statement Is Partially Untrue Because There Are Many Christian Warriors Existing In The United States And Abroad.

Not Much Is Spoke Of Anymore About The Christian Warriors Which Have Defended The Faith And Land For A Long Long Time Physically And Spiritually. I Guess The Point Is, In This Battle We All Face American Lives Take Priority Amongst All Other Lives, If One Must Choose. All Working In Government Should Know This As It Is The Federal Governments Sole Purpose Is To Defend The Exercise Of Rights Of The American People.

AT END OF THE DAY >>



I DO **NOT** HATE '**ANYONES' GUTS** SOLELY BECAUSE OF THEIR PARTICULAR RACE AND NEVER HAVE. I HAVE NEVER ADVOCATED FOR ONE RACE BEING SUPREME OVER ANOTHER. IN FACT, OFF THE TOP OF MY HEAD, I'M NOT SURE I TRULY HATE ANYONE WITH THAT SORT OF VIGOR, CONVICTION OR WASTED ENERGY.

THERE ARE HOWEVER PLENTY OF THOSE THAT I DISLIKE, DESPISE OR CAN'T STAND NOR WOULD I SHED A TEAR IF THEY NEVER PARTICIPATED IN OUR GOVERNMENT OR POLITICS AGAIN OR EVER TO HOLD PUBLIC OFFICE POSITION. AND THAT SENTIMENT WOULD EXTEND TO AND FIT THE DEMOCRAT/MARXIST/SOCIALIST/COMMUNIST/ANARCHIST/NIHLIST PARTY OF TODAY

ABOLISH THE PARTY-GET MY DRIFT HERE.

I DON'T CARE FOR, REAL ACTUAL RACIST AND TRUST ME I'VE BEEN AROUND SOME OF THE BADDEST HATEFUL NEO-NAZI'S, AT LEAST IN SOCAL. PEOPLE ARE ALLOWED TO BELIEVE WHAT EVER THE FUCK THEY WANT SO LONG AS IT RESULTS IN ZERO VIOLENCE OR INFRINGMENT ON ANOTHERS RIGHTS. SURE ITS SAD THAT SOME PEOPLE AND GROUPS HOLD THOSE VIEWS BUT UNLESS IT AFFECTS ME, I DON'T CARE.

THERE IS NO SUCH THING AS HATE SPEECH. OF COURSE I DON'T LIKE THE CARD CARRYING SWASTIKA/HH-88 TATTOO HAVING FOLKS OR FASCIST EITHER. BUT I KNOW A FEW, I'VE MET, THERE ARE SOME GOOD REASONS FOR THE HEINIOUS TATTOOS, IF BELIEVABLE.

I'VE HAD FRIENDS THAT SUDDENLY TURNED "WHITE PRIDE", NOTHING WRONG WITH HAVING PRIDE IN YOUR HERITAGE OR RACE. IT'S NOT RACIST WHEN ITS MEXICAN 'BROWN PRIDE' OR ANOTHER LATIN GROUP LIKE PUERTO RICAN PRIDE" CAN'T KNOCK THE "GAY PRIDE" FOLK EITHER IN THAT RESPECT. NOW CHANGE THAT "PRIDE" WORD TO "POWER" LIKE, 'BLACK OR WHITE POWER' OR ADD THE WORD GUERRILLA LIKE 'BLACK GUERRILLA ARMY', THEN THERE'S PROBABLY AN ISSUE HERE HOUSTON.

AGAIN THIS IS THE CLASS WARFARE IN MARXISM THE PROLETARIAT AND BEUGUY PLAY ON RACE LIKE THEY'VE DONE WITH EVERYTHING LIKE POLITICS, GENDER AND SEXUALITY. THE WIDESCALE IMPLEMENTATION OF DIVERSITY, EQUITY AND INCLUSION (DEI) WOULD HAVE KILLED OUR NATION FULL STOP. THANKS TO DJT POLICIES, REVERSALS.

FUNDAMENTALLY, THE BIGGER WAR IS BETWEEN THE **GLOBALIST ELITE *VS* HUMANITY** AS THEY LITERALLY TRY AND KILL US BY THE TENS AND HUNDREDS OF THOUSANDS EACH YEAR TO DEPOPULATE EARTH (MALTHUSIAN). GATES HAVING INFECTED TICS, RELEASED BY CANADIAN PILOTED SINGLE PROP ENGINE AIRCRAFT. GENETICALLY MODIFIED BIOLOGICALLY INFECTED MESQUITOS IN FLORIDA & TEXAS, VACCINES CAUSING MYOCARDITIS IN YOUNG MEN, KILLING OTHERS ALL MASKED AND HIDDEN IN VAERS TRACKING SOFTWARE. IN THE END THEY WANT MANY OF US DEAD INCLUDING OUR CONSTITUTION. ONCE COMPLETED THEY'LL HAIL THE SOLUTION AS GLOBAL CITIZENRY.

UNALIENABLE RIGHTS

Unalienable Rights are the Inherent, Sovereign, Natural Rights that existed before the creation of the State, and which, being antecedent to and above the State, can never be taken away, diminished, altered, or levied by the State, except by Due Process of Law. Nor can any Unalienable Right be fundamentally removed or waived by contract, whether by non-disclosure, which is fraud and unenforceable in Law, or knowingly by sufferance, which is contrary to the Spirit of the Law and prejudicial to Sovereignty.

The Original, Permanent, Unalienable Rights of every Man or Woman, include:

- The Right to Life, Freedom, Health and the Pursuit of Happiness
- The Right to Contract, or Not to Contract, which is Unlimited
- The Right to Earn a Living Income by being Compensated with Wages or a Salary in a Fair Exchange for one's Work
- The Right to Travel in the Ordinary Course of one's Life and Business
- The Right to Privacy and Confidentiality, free from Unwarranted Invasion
- The Right to Own, and Hold Property, lawfully without Trespass
- The Right to Self-Defence when threatened with Harm, Loss, or Deceit
- The Right to Due Process of Law, with Notice and Opportunity to Defend
- The Right to be Presumed Innocent, suffering No Detention or Arrest, No Search or Seizure, without Reasonable Cause
- The Right to Remain Silent when accused, to avoid Self-Incrimination
- The Right to Equality in the eyes of the Law, and to Equal Representation
- The Right to Trial by Jury, being an Impartial Panel of one's Peers
- The Right to Appeal in Law against Conviction or Sentence, or both
- The Right to Expose Knowledge necessary to one's Rights and Freedoms
- The Right to Peaceful Association, Assembly, Expression, and Protest
- The Right to Practice a Religion, and to have Beliefs, of one's choosing
- The Right to Love, and to Consensual Marriage with Children, as a Family
- The Right to Security from Abuse, Persecution, Tyranny, and War
- The Right to Refuse to Kill under command, by reason of Conscience
- The Right to Live in Peace and be left alone when Law-Abiding

Surely, the most critical failure of The People is their failure to ensure the teaching and common knowledge of their Unalienable Rights. If you do not know your Rights, you effectively have none. By the path of Ignorance, whether by Apathy or Deception, The People arrive in a State of Exploitation, Oppression, and Tyranny.

The smaller, BUT EQUALLY CONSEQUENTIAL war is multi-faceted **Islam *Vs* West** AND **THE UNITED STATES *VS* BRITISH INTELLIGENCE**, CCP, Russia, Iran,

N.KOREA, Cuba, Venezuela type of dynamic., WITH A SOCIALIST INFECTED MEXICO/central/SOUTH AMERICAN HEMOSPERIC VULNERABILITY.

Although all these enemies are against us and could always go kinetic. We are not facing their countries' (nation states) standing armies, we face HIGHLY ORGANIZED AND FUNDED, BUT less disciplined, less TOLERANT, zero accountability, and full deniability AUTHORITARIAN LEFT and islamism.

We are facing their **NON-STATE** sponsored **GUERILLA TRAINED TERRORISTS, AGENTS**, **PROVOCATEURS-SABATEURS**, paramilitaries, ***OPERATIVES, ENEMY INSURGENTS***, and **Guerillas-revolutionaries**.

COMING FULL CIRCLE, in all respects there is an acknowledged **SPIRITUAL WARFARE** that is occurring in the **MIDST** of all other CALAMITIES AND warfares.

SPIRITUAL WARFARE

THE BATTLE IS REAL. THE VICTORY IS WON.
PUT ON THE FULL ARMOR OF GOD AND STAND FIRM!

WHAT IS SPIRITUAL WARFARE?

Spiritual warfare is the unseen battle between the Kingdom of God and the forces of evil. It's not about fighting people—it's about standing firm in truth, faith, and obedience against spiritual opposition.

"We wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."

EPHESIANS 6:12

THE ARMOR OF GOD

EPHESIANS 6:10-18

HELMET OF SALVATION
Guards your mind with the hope of eternal life.

BREASTPLATE OF RIGHTEOUSNESS
Protects your heart by living right in God's sight.

BELT OF TRUTH
Stands firm in God's truth and rejects lies.

SHIELD OF FAITH
Extinguishes the fiery darts of doubt, fear, and negativity.

SWORD OF THE SPIRIT (WORD OF GOD)
Your offensive weapon against lies and deception.

GOSPEL OF PEACE (SHOES)
Stands firm and moves forward in the peace of Christ.

COMMON AREAS OF SPIRITUAL BATTLE

MIND
Negative thoughts, anxiety, lies

TEMPTATION
Repeated sin, addictions

FAITH
Doubt, discouragement

IDENTITY
Feeling unworthy, rejected, hopeless

PRAYER LIFE
Distractions, spiritual dryness

HOW TO FIGHT SPIRITUAL WARFARE

1. PRAYER
Your communication with God. Stay connected daily. Even short, sincere prayers matter.

2. THE WORD OF GOD
Your weapon. Jesus Himself used Scripture when tempted. (Matthew 4)

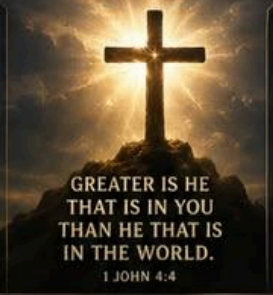
3. FAITH AND TRUST
Believe God even when feelings say otherwise.

4. HOLINESS AND OBEDIENCE
Sin gives the enemy access; obedience strengthens you.

5. PRAISE AND WORSHIP
Worship shifts your focus from problems to God's power and faithfulness.

KEY TRUTHS TO REMEMBER

- The victory is already won through **JESUS CHRIST.**
- You are not fighting FOR victory, but FROM victory.
- God is with you, in you, and for you.
- Stand firm, be strong, and do not give up!



SIMPLE PRAYER FOR SPIRITUAL STRENGTH

Lord, strengthen me in this battle.
Give me discernment to recognize the enemy's tactics.
Help me stand firm in truth, faith, and righteousness.
Fill me with Your Spirit and guard my mind and heart.
In Jesus' name, Amen.

BE STRONG IN THE LORD AND IN THE POWER OF HIS MIGHT.
EPHESIANS 6:10

STAND FIRM
PRAY HARD
TRUST GOD
ALWAYS!

SPIRITUAL WARFARE 101

Your Beginner's Guide to the Invisible Battle

Spiritual warfare isn't dramatic.

It's daily.

It's the unseen battle over:

- ✔ *Your thoughts*
- ✔ *Your peace*
- ✔ *Your obedience*
- ✔ *Your identity*

Ephesians 6:12 — Our struggle is not against flesh and blood.

WHAT IT REALLY LOOKS LIKE

Not just possession —

Deception. Oppression. Temptation. Accusation.

"You're not good enough."

"God doesn't care."

"You'll never change."

BUT YOU ARE NOT DEFENSELESS

God already gave you armor.
And Jesus already won.

THE WAY

PATTERN OF EXISTENCE

NOT A THEORY. NOT A RELIGION. THIS IS THE CODE.

1. THE ORIGIN

THE PATTERN BEGAN LONG BEFORE YOU.

Stars aligned.
Worlds formed.
Life emerged.
The pattern began in the silence of infinity.

YOU ARE PART OF AN ANCIENT RHYTHM.

2. THE TRUTH

THE SAME PATTERN LIVES WITHIN YOU.

What is in the universe is in you.
The microcosm reflects the macrocosm.
You carry the blueprint.

AS ABOVE. SO WITHIN.

3. THE REALIZATION

YOU ARE NOT SEPARATE FROM IT.

You are not a visitor.
You are not random.
You are the pattern experiencing itself through form.
You are the continuation.

YOU ARE THE WAY.

4. THE ILLUSION

YOU JUST FORGOT WHAT YOU ARE.

Distraction is not your truth.
Conditioning is not your essence.
Remembering is the return.
Awakening is the recognition.

THE VEIL IS REAL. BUT SO IS THE REMEMBERING.

5. THE RETURN

AND NOW YOU REMEMBER.

You are the light.
You are the way.
You are the creator.
You are the return.
The pattern continues through you.
Live it. Be it. Share it.

YOU ARE THE LIGHT THE WORLD AWAITS.

THIS ISN'T A STORY.

IT'S YOUR REALITY.

THIS ISN'T A DREAM.

IT'S YOUR MISSION.

REMEMBER WHO YOU ARE.

REMEMBER WHY YOU CAME.

WAKE UP. ALIGN. ACT. THIS IS THE WAY.

THE WAY

RANDY NANTZ
A war between **GOOD** and ***EVIL***. MAYBE Twenty years ago, most people would easily pick the side of **GOOD**, because souls weren't as corrupted as much yet. Just as famous soviet kgb defector yuri bezmanov explained in the 1980s, there would be a gradual moral decay of the nation, done slowly over time, a wide cast net of public demoralization of a nation such as the 1916 project that attempted to specifically portray our great nation as a purely bigoted racist nation, who gleefully massacred all the peaceful natives (none of which were barbaric)

I might also add the fair skinned irish immigrants were never enslaved or had a potato fammine.THEY ATTEMPTED TO TOTALLY PORTRAY AND RE-WRITE OUR HISTORY, ITS KNOWN FACTS AND NARRATIVES PORTRAYED IN A TOTALLY NEGATIVE VIEW THAT A MORAL SOCIETY WOULD NOT BE PROUD TO REPRESENT. Thankfully modern day real american truth telling historians like victor david hansen, glenn beck, larry arn, eric metaxas, shawn ryan show, thought leaders like the late great charlie kirk at tpusa, nick frietas, michael knowles, candace owens, elon musk, joe rogan (recovering liberal) are permitted to speak on some unbiased media outlets and discredit

THIS EFFORT WAS LED BY DEMOCRATS AND xx. 1619 PROJECT TO REFLECT ABSOLUTE FALSEHOODS AS EMPIRICAL TRUTH, WITH A SPECIFIC AIM AT INCITING HATRED TOWARDS THE USA AND A SHOT AT A TOTAL DEMORALIZATION EFFORT AGAINST ITS PEOPLES. MOST U.S EDUCATION HAS BEEN INFILTRAITED WITH THIS TOXIC GARBAGE RUSTLING IN AMERICANS HATING THEIR OWN NATION.

THE SAD PART IS YOUNG PEOPLE AND OLD BELIEVE THIS CRAP. oTHER ATTEMPTS like defund and shit on all police, MERLEY because "they are all fascist" (non-sense) AND USED TO INCITE THE MOVEMENT NARRATIVE WAS CRIMINAL AND DRUG ADDICT, GEORGE FLOYD WHICH SADFULLY DIED AT

HIS OWN HANDS, BUT ULTIMATELY FROM CHINA AND THEIR FENTAYNAL CHEMICAL WARFARE AGENTS. ALL OF US SAW THE CHAUVIN VIDEO AND MADE ASSUMPTIONS ON CAUSE OF DEATH, HE SHOULD NOT BE IN PRISON WHERE HIS LIFE IS IN JEOPARDY AS A FORMER POLICE OFFICER WITH CAREER RUINED, BUT SHOULD BE RELEASED. FLOYD SWALLOWED THE NARCOTICS BEFOREHAND. ALSO HAD A PLEOTHORA IN HIS SYSTEM UPON ANALYSIS. THE PHONY "BLACK LIVES MATTER" STUNT MOVEMENT, A DOCUMENTED AND PROCLAIMED RADICAL MARXIST ORGANIZATION WITH DIRECT TIES TO THE COMMUNIST CCP. AND THE DIVERSE SUPPORT IT MUSTERED PHYSICALLY (ALL TYPES GUILT STRICKEN/MANY VIRTUAL SIGNALLING) AND FINANCIALLY (LARGE DONATIONS).

THEY QUICKLY FOLLOWED WITH MASS GOV/PRIVATE PROPERTY DESTRUCTION, RESULTING IN SEVERAL DEATHS, FIREBOMBINGS, AND FURTHER DESTRUCTION OF LOCAL BLACK COMMUNITY BUSINESSES. HARDLY ANYONE ARRESTED, MARXIST LEADERS ALICIA CUELLORS SPLIT WITH THE LOOT BOUGHT PERSONAL PROPERTY IN LOS ANGELES PAID MILLIONS TO FAMILY MEMBERS FRAUDULENTLY WITH DONORS FUNDS

I STILL BELIEVE (BASED ON POLLS) THAT A MAJORITY OF US PERSONS BELIEVE IN WESTERN IDEALS AND WAY OF LIFE AND THAT SHOULD BRING US SOME HOPE. THE FACT THAT DJT WAS ELECTED AGAIN USING "TOO BIG TO RIG" METHODOLOGY SHOULD BRING HOPE.

THE FACT THAT HE'S ARRANGING THE NEW WORLD ORDER IN FAVOR OF AMERICA , RE-SHORING MANUFACTURING OF VEHICLES AND OTHER GOODS CREATES JOBS. CONTROLLING THE FOURTH INDUSTRIAL REVOLUTION IN OUR FAVOR WEEDING OUT THE BRITISH FINANCIAL SYSTEM,

NON COMMITMENT TO LONG WARS, STRATEGIC AND GEOPOLITICALLY PLANNED SHORT USE OF MILITARY ASSETS TO ACHIEVE GLOBAL POSITIONING OBJECTIVES IS FINE WITH ME, SO LONG AS THEY ARE MILITARILY, ECONOMICALLY OR DIPLOMATICALLY BENEFICIAL TO, AND IDEOLOGICALLY ALIGNED TO THE UNITED STATES.

Now, opposite of what one would expect of me, I HAVE not ever served in an active or reserve duty capacity WITHIN the U.S armed services.

Oh FREAKIN no ! Let the subconscious doubt and OBNOXIOUS shit talking begin. That's ok boys, I can take the heat, AND HANDLE MY SHIT TOO!

TRUTH BE TOLD, I ONLY SEEK TO SHINE A BRIGHT LIGHT FOR THOSE THAT HAVE NOT WALKED THE 'TRUTH' PATH YET. FOR THOSE THAT ARE UNDER OR ILL INFORMED, DUE TO CORRUPTED LEFT BIASED MEDIA CONGLOMERATES, BACKED BY THE OBAMA ERA SMITH-MUNDT AMENDMENT. THIS MODIFICATION LEGALLY ALLOWS U.S FACING (INWARD) PROPAGANDA. MANY HAVE BEEN BRAINWASHED BY TELEVISION OUTLETS EMPLOYING CONSULTANTS/ADVISORS THAT ARE FORMER INTELLIGENCE OFFICERS ,

I'M NOT SEEKING 'LIKES', FAME, FANDOM, FOLLOWS, TWEETS, IMPROVED ANALYTICS, MONETARY GAIN, INFLUENCER STATUS, LEADERSHIP ROLES, PUBLICATION NOTORIETY. PERHAPS A MERE DOCUMENTATION OF WHAT'S LED TO THIS POINT IN TIME, WHERE THIS MUST BE DISCUSSED. WE ARE IN THE MIDST OF FULL DOMESTIC INSURGENCY. THE DEMOCRAT PARTY IS NOW AN INSURGENT GROUP, WITH PORTIONS UNDER FOREIGN INFLUENCE.

OUR BORDERS HAVE BEEN BREACHED AND NATION COMPROMISED, 25+ MILLION ILLEGALS ENTERED, MANY FROM INSANE ASYLUMS, CAREER CON-MEN/CRIMINALS, RAPIST, SODOMIST, MURDERS, GUNS/HUMANS AND DRUG TRAFFICKERS PEDOPHILES, THEIFS AND OTHER FELONS. SERIOUSLY OVER THIRTEEN THOUSAND CRIMINALS CONVICTED OF OR CHARGED WITH ""MURDER"", (SOME MORE THAN ONE), WERE RELEASED BY CBP PER MAYORKAS, DIRECTLY INTO OUR NATIONS INTERIOR PERIMETER WITH A 3 YEAR NOTICE TO APPEAR (NTA) ISSUED. ALL PLANNED BY THE UNITED NATIONS.

I SIMPLY WANT TO PROVIDE A GUIDE TO WHICH. A 30 YEAR OLD YOUNG MAN CAN DOWNLOAD, PRINT, READ, KNOW WHAT'S REALLY UP 'QUICKLY' LEARN SOME WAYS TO BE LEFT ALONE AND UNBOTHERED, AVOID CONFLICT, TRAIN-SOLO, WHAT TO EFFECTIVELY TRAIN-WITH ON A TEAM, EXPECTED ENEMY TACTICS, WAYS TO STAY ALIVE, AND FIGHT IF REQUIRED

So who am I? THIS QUESTION WAS ASKED OF ME ONCE AT A GOVERNMENT AGENCY WITH REQUESTED ESSAY RESPONSE ANSWER. I'm a god fearing christian, father of two young men, eldest of five younger ADULT brothers, an uncle of two, a PAST mentor to several.

Professionally I am a 25+ year USG contractor (PSC), DoD Physical Security & Intelligence professional.

I began skills development as a teen, prior to reciting the "Pledge of Allegiance' 6 years in elementary. (SIDENOTE) IndocTRINATION SUCH AS THAT NEEDS TO BE RE-IMPLEMENTATED HERE AT HOME IMMEDIATELY POST HASTE. THAT IS IF DJT RE-FORMATS THE EDUCATION DEPARTMENT. IF THE PARENTS COMPLAIN AS MOST SOCIALIST PARENTS WILL, JUST LIKE THE OLD DAYS-ALIENATE (LITERALLY) THE KID, (STAND OUTSIDE) EVENTUALLY HE'LL LEARN TO LOVE HIS COUNTRY. BECAUSE SERIOUSLY NOW, CITIZEN OR NOT DO WE WANT THIS PERSON WHO DESPISES OUR LAND, ANCESTORS, BLOOD SACRIFICE AMONGST US AND MORE IMPORTANTLY DOESN'T HE WANT TO BE ONE OF US AS A MAJORITY TRUE AMERICANS? YET, THEY CAPITALIZES ON THE BENEFITS OF THE LAND, WHILE SHIT TALKING EVERYTHING, FOLLOWING DEVALUING, OR COMPLAINING ABOUT IT

I started out with only 1 year of cub scouts and skipped Boyscouts ENTIRELY because my Mom was CLOSED MINDED AT THE TIME AND uncomfortable with the Troop being sponsored, funded and run out

of the local 'Church of Later Day Saints'. Reflecting back from my forties now, I literally missed out due to Mom's inherently biased decision. She later admitted she "didn't know much about them". I didn't tell her some of my best neighborhood friends were Mormon and shit did they have tons of food in every pantry!

We were Christian/Catholic. I didn't understand the difference .

In the Cadet Corps I learned, participated, drilled and tested- Army physical fitness training, expert marksmanship, tactical maneuver, military discipline, Esprit DE Corps, Customs & Courtesies, Recondo Team, Land Navigation, Military Science, Military History, Honor Guard, Ranger Challenge, Wilderness Survival, BIVOUACING, Mountaineering, Leadership school, Battle Drill scenarios, and SO MUCH MORE because I was not only a JROTC Army Cadet but also a CONCURRENT U.S Air Force Auxiliary Cadet (Civil Air Patrol) ALSO having base and BX access and other perks. Fast Forward I've attended numerous tactical, medical school training houses, attended various federal law enforcement training regarding a plethora of topics from HOSTILE SURVEILLANCE DETECTION TRAINING, OVERSEAS TRAVEL THREAT COURSE to expert OSINT training from the FBI. I was trained in TCCC when it first came out in the 1990's, CERTIFIED IN CPR,1ST AID, AED,BBP, PPE FOR 20 CONSECUTIVE YEARS WITH CERTIFICATION .

I am also not A FIREARMS, COMBATIVES OR SELF-DEFENSE INSTRUCTOR NOR AM I an expert nor professional soldier or Guardsman, but DESPITE MY OWN PERSONAL PROBLEMS I'm capable and knowledgeable of both. What I don't know I can learn, because I'm an OPEN AND PLIABLE MINDED HUMAN, always willing to SHUT MY MOUTH, OPEN MY EYES AND EARS, listen and be taught.

Like many, September 11th 2001, despite who's fault, who had prior knowledge, despite former Director Brennan facilitating access of the attackers from Saudi Arabia and despite the "Dancing Israelis" video.

LIKE MILLIONS, This shit jacked me up bad inside and out. I became fixated on our enemies and how it related to my career moving forward, not being a member of the Armed Services that had seemed to be my destiny. Twenty-FIVE years later I still felt in my gut that I would once be required to face radical Islam on the battlefield and at home. Memories of thousands of hours of ingested CNN daily headlines. Remaining in a state of hypervigilance TEN years straight I consider myself a "jack of all security specialties trades, Master of None".

Although I have never served in the Armed Forces, I certainly have served this country in many other capacities in the course of my duty assignments, having sworn an oath twice in the course of service. I would do so again in a heartbeat as the Oath sworn never really expires in your heart.

Aside from that, my patriotism runs way deep. I am the fifth great grand SON of Colonel Jonathan Williams (Jr) (1st) first Superintendent of Military Academy at West Point Designer/Builder of Castle Williams, NY to which the name Williamsburg , ny owes its namesake and other East coast Fortifications. Almost became a Congressman but succumbed to alcoholism, likely at the loss of his son Alexander.

He also was a special assistant to my Eighth Grand Uncle Benjamin Franklin a , drafter and co- signer, of the 'Declaration of Independence & U.S Constitution, a relative of mine who incidentally briefly flirted with Satanic rituals, sexual deviance, but also performed America's first ever documented "Covert Action" as he was also a "Diplomat" before there were spy agencies , diplomatic CORPS, OR POLITICAL BUREAUS-HE WAS ALSO a printer, a writer, an inventor, a scientist, a lawmaker, and a postmaster, among others . He was also a MASTER freemason, pretty high up I guess, I MEAN THERE'S A MASON LODGE DEDICATED TO HIM IN MASS. OR PENN I've always heard the masons built this nation. Col. Williams lost his son Captain Alexander 'John' Williams (MY fifth great uncle) during the War of 1812, In the ONTARIO, Canadian AREA, DEFENDING AGAINST THE BRITISH at the "STANDOFF of

Lake Erie", his younger brother Henry became a well respected Massachusetts lawyer.. Both my paternal grandfathers served in the Army during WWII and one in Korea, one is also buried in a national cemetery. ANOTHER WENT ON AND became a Chicago Fire Fighter and quickly a CIVILIAN Captain due to high attrition rates in CHICAGO IN the early 1900's. My Marine Devil uncle John H. also served in GERMANY AND South Korea holding the line REPRESENTING THE U.SA, STUDIED UNIQUE TIME PIECES WHILE STATIONed IN GERMANY, REPAIRS RARE, FINE TIME PIECES, AT OVER AGE 65 BECOMES SHERIFF OF A SOUTHERN Tennessee TOWN RUNS CHAIN-GANG PROGRAM AFTER RETIRING. My father served as an enlisted, two tours in Vietnam, EAGLE SCOUT, JPL, NASA, INTELLIGENCE, OTHER. My cousin Sean served in the first Gulf War, CONTINUES SERVE AS SEARCH AND RESCUE IN TENNESSEE. As a U.S. ARMY PFC he visited my 7th GRADE junior high classroom for "Bring your Relatives to School Day", The first time I saw my cornfed cousin out of boot camp, first time ever observing desert camo patterned uniform, with desert colored boots. To us young scrawny kids he represented "a CORNFED can of american whoop ass!" AKA AMERICA'S FIGHTING SPIRIT.

Hopefully I've made my point here. I love this country, because I come from a family of ALL CITIZENS, WHO HAVE SACRIFICED FOR OTHERS AT SOME POINT, OR FOR THE GREATER GOOD. I COME FROM A FAMILY that loveS our country FOR WHAT IT HAS PROVIDED OUR FAMILY.. MYSELF AND FAMILY ARE FOREVER INDEBTED TO THOSE WHO HAVE FAITHFULLY SERVED OUR GREAT NATION, THE FALLEN, THE MANY BATTLE WOUNDED LIVING, PHYSICALLY AND/OR MORALLY & EMOTIONALLY INJURED WITH INVISIBLE WOUNDING AND SCARRING AND THOSE WHO HAVE CONTINUED ON.

I LOVE AND WILL ALWAYS CHERISH AND DEFEND THE "HONOR" OF THOSE WHO HAVE PERISHED FOR THIS NATION! I love and support the patriots who have served THIS NATION HONORABLY . I love what it means to be American. I promote and embrace American Principles, Values, Patriotism and American Ideals because that is who I am and what I believe. Yes, I'm aware of some of the bad things America has done even to its own people. UNESSISARY FOREIGN WARS AND ENTANGLMENT,

MK-ULTRA, TUSKAGEE, I GET IT, PERHAPS ITS BECAUSE I WAS A USG GUY AND JUST EXCUSE IT. ITS MORE LIKE THE GOVERNMENT DOESN'T ALWAYS REPRESENT THE WILL OF THE PEOPLE AND THAT MUST CHANGE. THE ONLY WAY THAT HAPPENS IS BY CUNNING MINDS AND "THE PEOPLE", VIOLENCE UNREQUIRED.

SO FINE, AMERICA IS GUILTY,

I SAY, **SO FUCKING WHAT!** SURE THE RESPONSIBLE PARTY SHOULD ALWAYS PAY, ACCOUNTABILITY IS PARAMOUNT. JUSTICE SERVED. THESE PEOPLE I SWEAR..

HOW IS ABANDONING YOUR COUNTRY AND ITS CORE BELIEFS EVEN A THING?

WOULD I ABANDON MY LOVE FOR FAMILY OVER SOMETHING, IS THAT TRULY POSSIBLE? WHY WOULD A PERSON ABANDON HIS COUNTRY TO THE POINT HE OPENLY/SECRETLYWORKS AGAINST HIS COUNTRIES INTERESTS AND WANTS IT DESTROYED? I CAN THINK OF A FEW REASONS, BUT IN GREAT MASSES AND DROVES OF PEOPLE? NO THIS IS A SIGNATURE OF CULTURAL MARXISM AND IDEOLOGICAL ROT PERMEATING OUR VERY CULTURAL ECOSYSTEM. OPPRESSED OPPRESSOR , VICTIM MENTALITY YOU KNOW LIKE THE PEOPLE OF GAZA..

IN THE END, MOST US INTENTIONS ARE GOOD WILLED, IN THE **GRAND SCHEME**, **THE NATION AS WHOLE, ITS CONSTITUTION**, BILL OF RIGHTS AND ITS IDEALS ARE **ABSOLUTELY RIGHTEOUS** . INHERENT RIGHTS GIVEN BY GOD, UNALIENABLE RIGHTS, FURTHERMORE THE FEDERAL GOVERNMENTS SOLE PURPOSE FOR EXISTENCE IS TO PROTECT THE FREE EXERCISE OF THOSE RIGHTS BY ITS CITIZENS AND TO ENSURE SOVEREIGNTY. THIS IS WHY THE **UNITED NATIONS** AND ITS BACKERS WANT OUR CONSTITUTION **ABOLISHED**.

Temp Besides the Musi's are coming for us.

Endowed with *Unalienable Rights-*

Unalienable rights are **fundamental,** inherent human rights that cannot be surrendered, sold, or transferred to another person or authority. Rooted in the philosophy of **NATURAL LAW**, they are considered **BIRTHRIGHTS** of all mankind rather than privileges granted by a government

LETS KICK THIS OFF
WITH OPSEC

NAVAL OPSEC SUPPORT TEAM

OPSEC

4 THINGS EVERY SAILOR SHOULD KNOW

1. WHAT IS OPSEC?

OPERATIONS SECURITY

IT IS A SYSTEMATIC, PROVEN PROCESS THAT IDENTIFIES, CONTROL AND PROTECTS GENERALLY SENSITIVE BUT UNCLASSIFIED INFORMATION ABOUT A MISSION, OPERATION, OR ACTIVITY.

2. WHAT DOES IT DO?

IT KEEPS OPERATIONS SAFE

WHEN OPSEC IS EFFECTIVELY EMPLOYED, IT DENIES OR MITIGATES AN ADVERSARY'S ABILITY TO COMPROMISE OR INTERRUPT A MISSION, OPERATION OR ACTIVITY.

3. HOW DOES IT WORK?

THROUGH PROPER CONSIDERATION OF EACH OF THE FIVE STEPS WITHIN THE OPSEC PROCESS AND THE PROCESS INJECTED IN ALL PLANS.

4. OPSEC IS EVERYONE'S RESPONSIBILITY. USE IT TO PROTECT YOUR COMMAND, SHIPMATES AND FAMILY.

RDCTD // FIELD INTEL

AWARENESS IS SURVIVAL

READ BEFORE YOU'RE READ

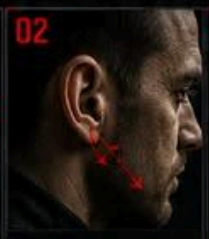
HOW TO KNOW WHEN SOMEONE IS TRYING TO "READ YOU"

In the field, people collect data on you constantly.
Your job is to spot it early, disrupt it, and stay ahead.

SIGNS SOMEONE IS TRYING TO READ YOU

01 EXCESSIVE EYE CONTACT

- Holding gaze longer than normal
- Scanning your face methodically
- Looking for reactions



02 FOCUSED MICRO-OBSERVATION

- Noticing small details (hands, posture, tone)
- Eyes flicking to objects you interact with
- Tracking your patterns

03 TESTING QUESTIONS

- Asking indirect or layered questions
- Rephrasing to get consistency
- Pushing when you give vague answers

04 BEHAVIOR MIRRORING

- Mirroring your posture, tone, or pace
- Subtly matching your energy
- Adapting to blend and extract

05 MENTAL NOTE-TAKING

- Looking away while processing
- Writing things down or using devices
- Remembering small, irrelevant details

06 SOCIAL PROBING

- Asking about your circle, habits, or locations
- Fishing for emotions
- Building a profile through conversation

WHERE & WHY IT HAPPENS

MEETINGS & NEGOTIATIONS
To gain leverage or detect deception.

SOCIAL SETTINGS
To size you up or build a profile.

WORKPLACE
To assess value, threat, or weakness.

TRANSIT & PUBLIC SPACES
To identify patterns and routines.

ONLINE & DIGITAL
To track behavior and preferences.

THE GOAL ISN'T SMALL TALK. IT'S INFORMATION ADVANTAGE.

If they know your patterns, they can predict your decisions.

PREDICTABILITY IS VULNERABILITY.

COUNTERMEASURES: STAY UNREADABLE

CONTROL YOUR BASELINE
Keep your behavior, tone, and reactions even.
No spikes, no drops.

RANDOMIZE PATTERNS
Change routines, routes, responses.
Avoid being predictable.

LIMIT DISCLOSURE
Give only what's necessary.
Vagueness is not weakness.

TURN THE TABLE
Ask questions. Observe how they respond.
Make them the subject.

DISENGAGE CLEANLY
If you sense profiling, end the interaction or change the dynamic.

FIELD NOTE

REMEMBER:

THE BEST OPERATIVE IS BORING.

UNMEMORABLE. UNPREDICTABLE. UNREADABLE.

The ultimate objective of this guide is to orient you to the framework that is likely operating around you, in the shadows. To learn to be aware, recognize indicators of violence, to recognize when it's time to depart, fall back, break contact from a location or engagement, notify LE, engage a terrorist or insurgent, recognize their weapons and basic function.

To Present to you enemy tactics, so if you 'choose'; You can train in the art of countertactics for use in an unwanted engagement against a threat, as an armed citizen or team providing homeland defense.

It should be noted before consuming this product. Education is an obvious battlefield advantage for any participating entity. It's also my experience that knowledge for most people is attained by the act of physically completing the assigned task. Simply reading the information contained here, does not automatically make you qualified to address the complex issues discussed here.

However, proper contextual consumption paired with field activity, new or remedial training in the areas of tactical pistol, carbine courses, courses exercising individual movement techniques, shoot move, communicate, defensive shooting course etc will aid in proper digestion of the material presented here. For some tactics discussed

later here it is highly recommended and advisable to seek special operations certified (LE/Mil) intermediate and advanced level battle drills and close quarter combat training by a professional trainer, a mandatory for advanced team level scenarios.

BACKGROUNDER

Since 2023, perhaps earlier, credible intelligence from multiple private source entities confirm that Osama Bin Laden's sons Hamza, Saad, and Abdullah are all still alive and orchestrating a large-scale terror campaign against the United States, called the "Homeland Plot" or "9/11 2.0." image

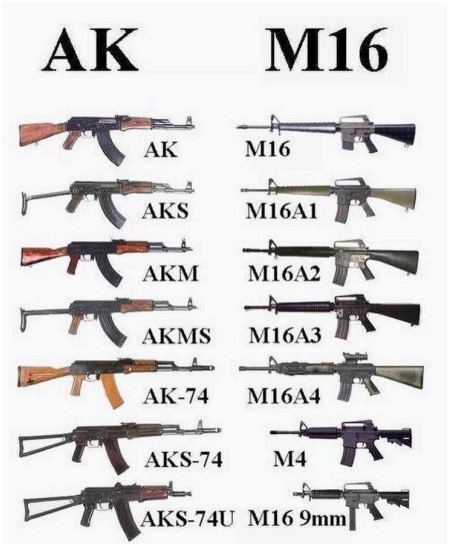
For the record, Hamza has been the **Emir** of **Al Qaeda Central** since his father's purported demise, but actually assumed the role based on the media reports of his own death by US drone strike in 2019. For a good duration of this time span he was being hosted and sheltered within Iranian territory by Senior IRGC Quds Forces leadership, before recently returning back to Afghanistan to command the terror organization hands on.

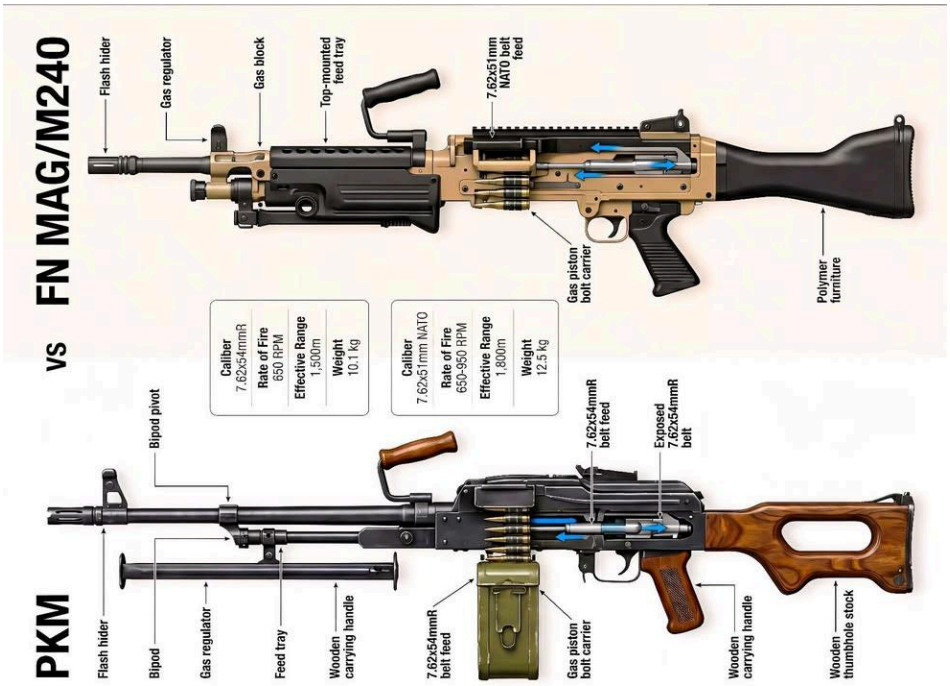
Hamza pic

This initial plot involves a multi-pronged, simultaneous complex, coordinated, terror attack (CTA) (CCTA) on at least fifteen major US cities.

Urban terrorist cells, composed of small assault teams (2-4) (6-12) armed with a mix of illegally obtained and US imported, military-grade weapons,explosives,AA-AP shoulder fired RPGs, and stateside acquired modified firearms from the blackmarket, are the primary-back-up options.

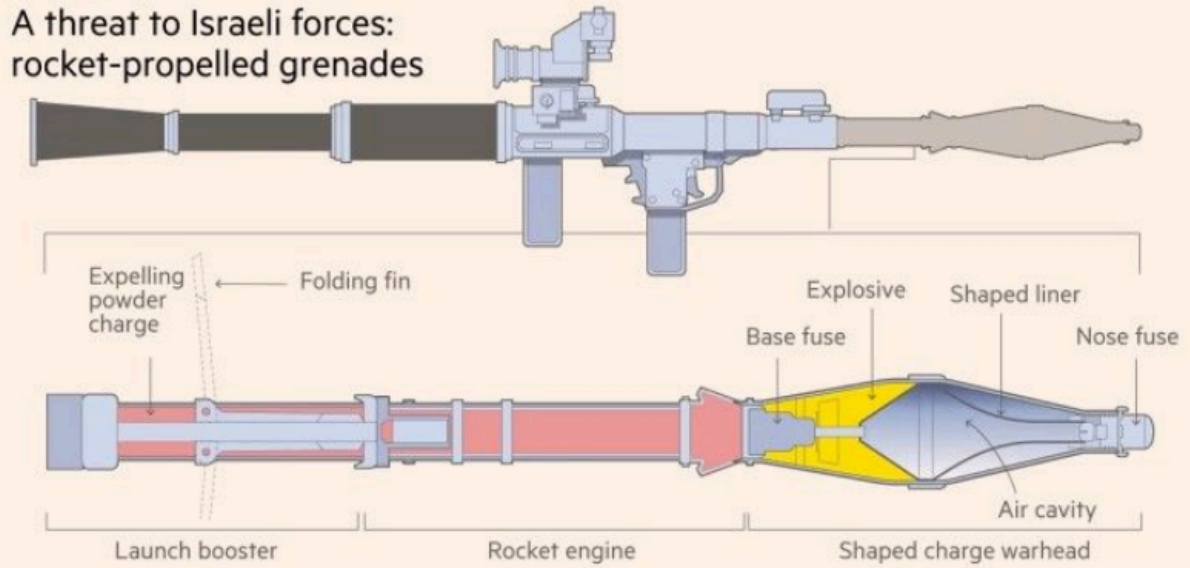
The weapon systems, highly likely include full auto and semi-automatic M-4 carbines, M-16 A-4,M-249,b,L (SAW) illegally modified AR-15s, AK-series rifles,hand grenades (foreign/domestic), Russian RPGs, and. Many of these weapons have become accessible due to the abandoned US arms caches in the Afghanistan theatre of operations, now trafficked through Taliban-controlled markets into Mexico and then into the US.





The initial motivation for these attacks is revenge for the death of Usama Bin Laden and the US’s prolonged military presence and previous prolonged drone strikes in the Middle East as a whole. Additionally, the bin Laden trio would simply like to completely out perform their father’s monstrous terror attack on 11 September 2001, killing 2,977+ civilians.

A threat to Israeli forces: rocket-propelled grenades



1 The shaped explosive is detonated causing the metal liner to collapse forward at a high velocity

2 This forms a high-speed metal lance about 10mm thick that is capable of piercing up to 1m of armour

3 The effect is kinetic and only causes an explosion if the lance hits ammunition inside the vehicle

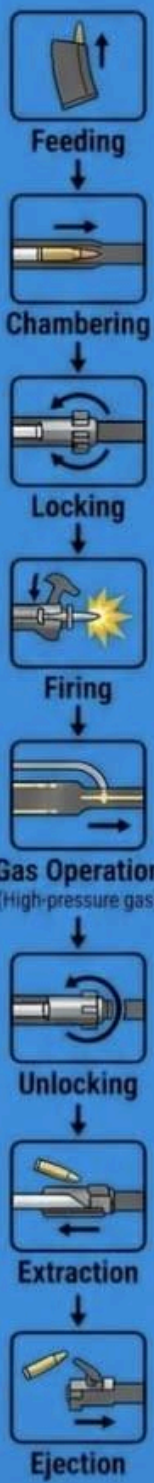
AK-74 RIFLE

Key Characteristics

- **Reliability:** Exceptional durability in harsh conditions. Simple design with large tolerances.
- **Recoil:** Moderate, manageable recoil. Effective muzzle brake helps control muzzle rise.
- **Precision:** Sufficient for military use, generally less accurate than the AR-15 at longer ranges.

FIRING CYCLE



AR-15 RIFLE

Key Characteristics

- **Reliability:** High reliability with proper maintenance. Susceptible to fouling from internal gas blowback.
- **Recoil:** Low, smooth recoil impulse. Promotes faster follow-up shots and accurate fire.
- **Precision:** Excellent inherent accuracy due to tight tolerances and rigid construction. Highly precise.

His attack of course consisted of a strike on the World Trade Center towers (New York): 2,753 deaths, a plane strike on The Pentagon (Virginia): 184 deaths (125 in the building, 59 on American Airlines Flight 77) and the flight that horribly ended in Shanksville, Pennsylvania: 40 passengers and the crew on **United Airlines Flight 93.**

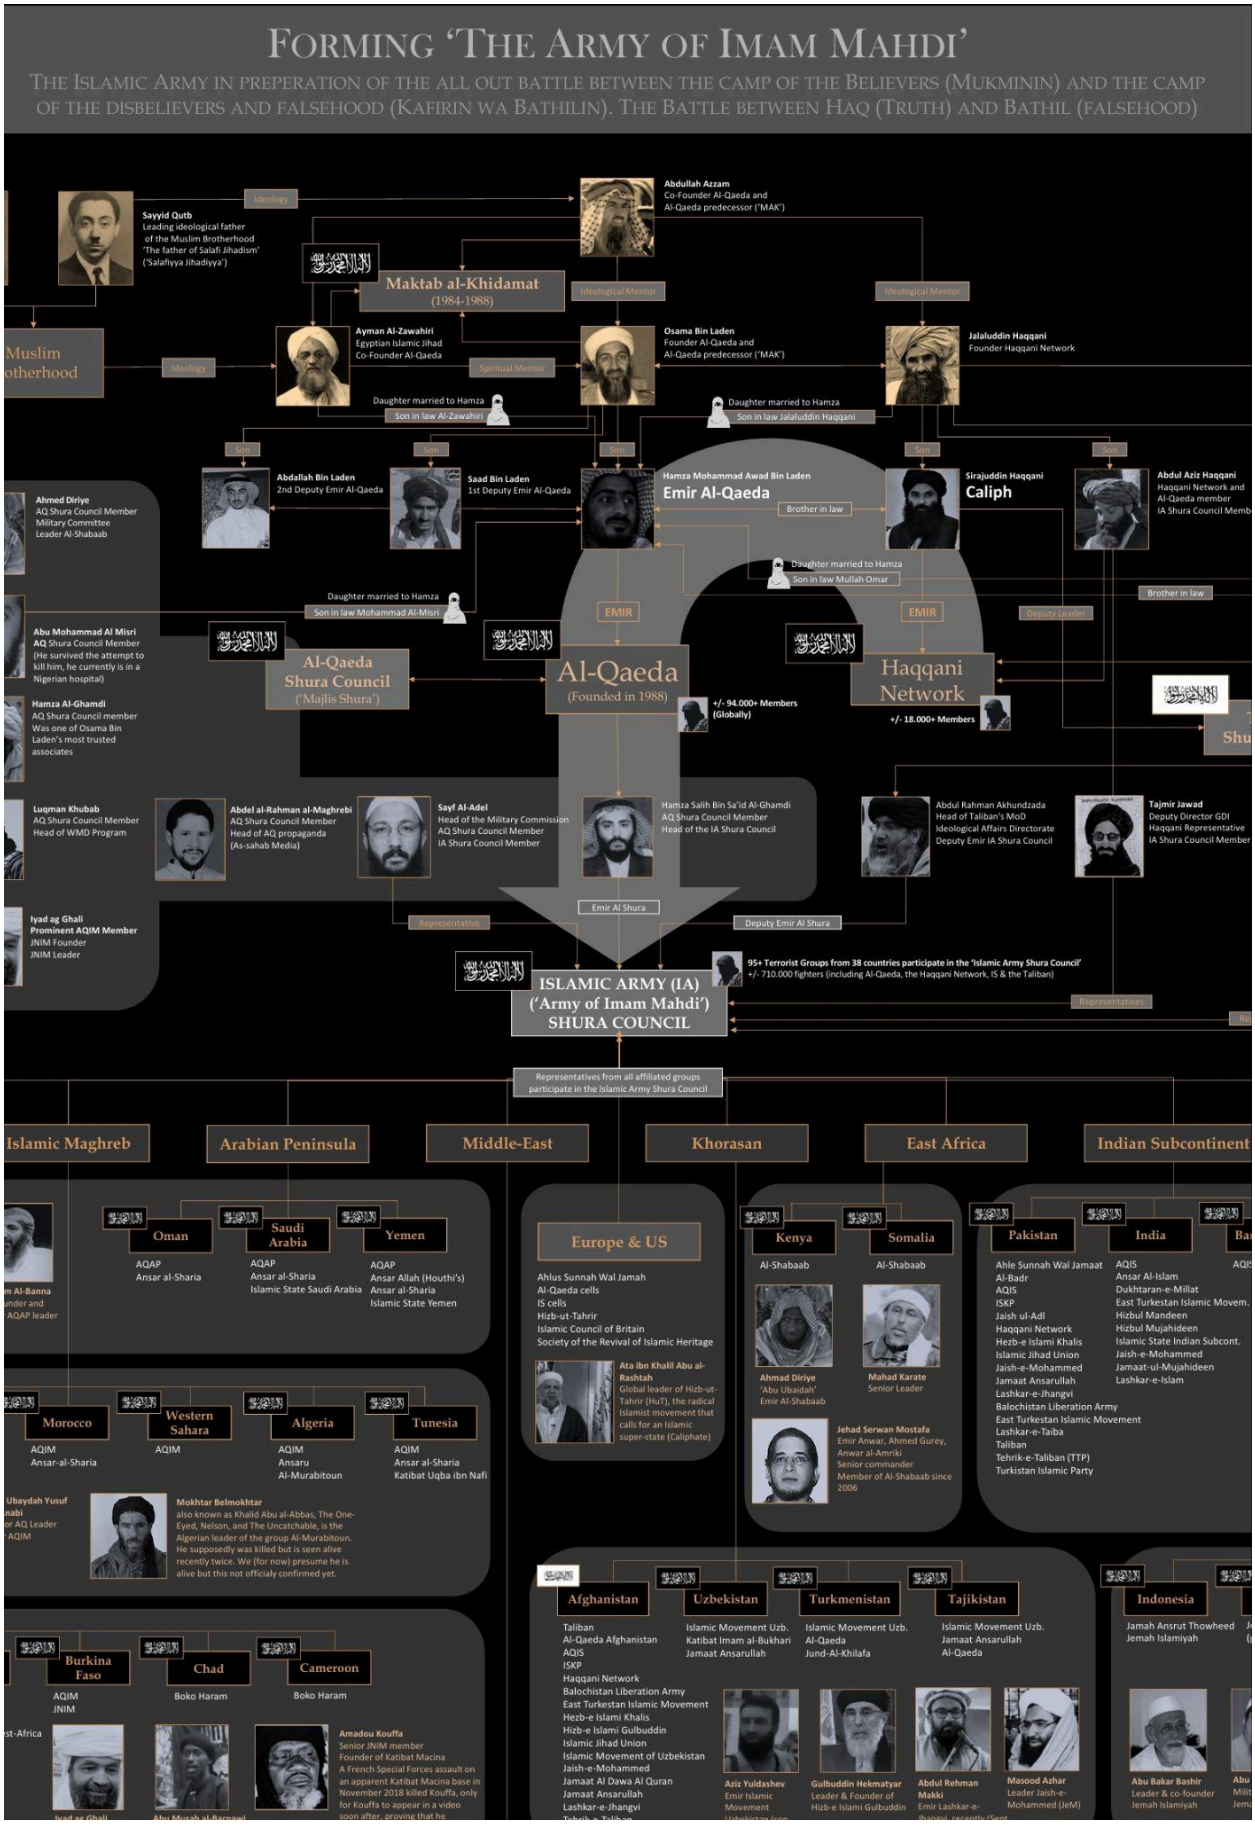
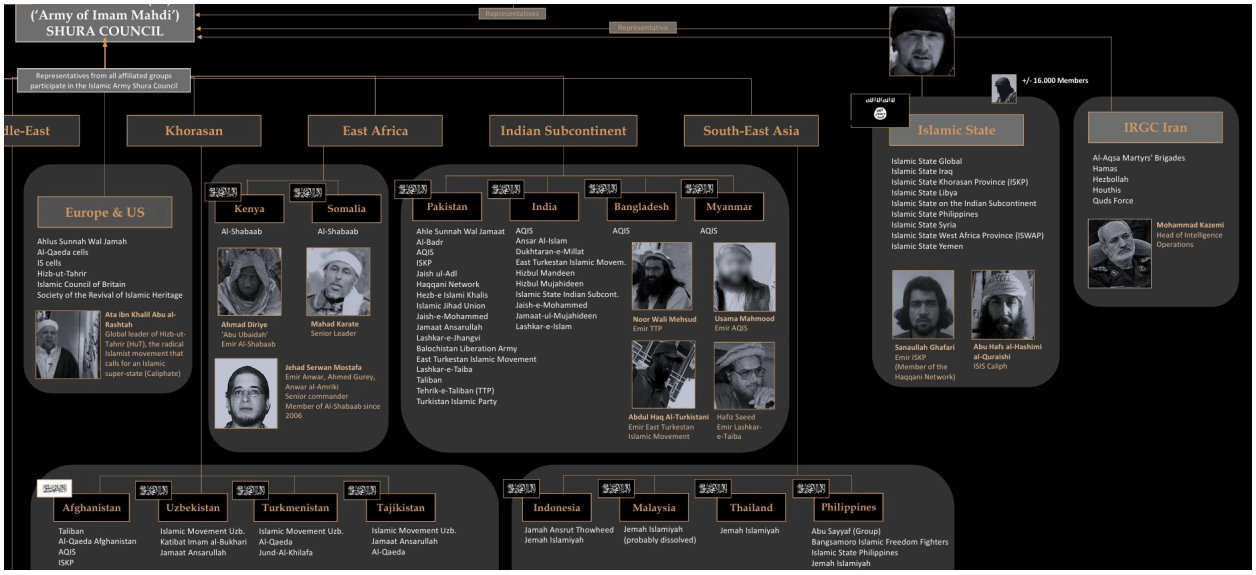
The new core leadership of ""The Army of Imam Mahdi" is listed below in a diagram created by the TIC, whereas it clearly shows Al Qaeda Core, Haqqani Network, Afghani Taliban and Islamic State make up most senior leadership, following the organization's 'Shura Council' a crucial voting body consisting of ranking delegates, commanders, and is responsible for oversight and "War Planning" efforts, tasked with strategic decision making, tactical concept of operations (ConOps) while handling basic international logistical and operational requirements, for any 'Council authorized' terrorist field operations or activity within certain geographical area of responsibility, similar in nature and function as the United States War Department (DoW) formerly DOD.

Forming 'The Army of Imam Mahdi'

The Islamic Army in preperation of the all out battle between the camp of the Believers (Mukminin) and the camp of the disbelievers and falsehood (Kafirin wa Bathilin). The Battle between Haq (Truth) and Bathil (falsehood)





A major core objective and essential aim is to completely embarrass, utterly disgrace the United States on an international stage, in front of the world, by the easy procurement of and utilization of its very own military defense hardware (M-4/16/249) homeland manufactured weapon systems (abandoned in Afghanistan 2021) to be deployed against the 'Homeland' during a significant assault campaign. They aim to execute a widespread mass casualty attack (CCTA) on the U.S. civilian populace and first responders, exceeding the destruction witnessed on 9/11/01.

Another added dynamic here is that AQ is not a lone entity in this venture. They have partnered with Taliban,Haqqani Network, ISIS/ISKP, Al Shabaab, Ansar al Islam,Ansar al Sharia,Ansar al Allah, JNIM, TTP, Hamas, and Hezbollah and 10-15 perhaps other jihadist groups to form the conglomerate terror group **(included baya sworn AQ branches affiliates-AQAP,AQIS,AQIM,AQE,AQL)** (consisting of Sunni/Shia terrorist) the **"Army of Allah"** or the "**Army of Imam Mahdi**".

NOTE: Another consolidation aspect-AQ (who is overall leader),the Taliban,and the Haqqani Network are now all one big happy and integrated, cohesive, family unit. Now they are bound together by blood and several key marriages that 'tribally' establish joint unification between all three groups.

I'm certain the benefits are many, with the Taliban still receiving forty million dollars ($ 40M) cash per week, hand delivered and brought in by plane. (Process still uninterrupted even after huge Shawn Ryan-Vigilance Elite/Sarah Adams/LTC.Scott Mann,LEGEND campaign effort and congressional "PETION" to halt payments,) . This funding to our enemies of the last 25 years,to which blood has been spilled many times over; allows the Taliban unlimited resources for terror operations, especially while hiding out in the USA waiting to attack the people that currently fund them.

The funding they receive is mostly for "Counterterrorism Efforts/Partnership), specifically to counter ISIS. Instead, they are both complicit with AQ,Haqqani to cast out this grand deception to the western intelligence apparatus that hardly has eyes on the region (**Biden era "OverTheHorizon" intel**).

The Taliban persist in feeding narrative lies to our government, left and right, laughing their sandflea bitten, brown asses off at the "kuffar", gullible foolish,"Infidels" (Unbelievers). Very similar to Islamist and DSA member, Congresswoman Ilhan Omar who has boastfully stated before, "it's no privilege living in the U.S and would gladly move home to Somalia". Seriously, thumbing her nose while she was highly likely knowledgeable of all the billions in fraud & corruption taking place in her Minnesota District,including the "Feeding ur Future" scandal where kids were left to starve,while fraudsters drive Mercedes.

All this while her fraudulent marriages mainly to get her sibling "status" visas in the homeland, but then fraudulent school applications, fraudulent school loans, and her current husband allegedly runs a fake winery operation or at least the website is below amateur, unmaintained for years likely "front space". I've also heard her wealth jumped into the 30-40 million range. She has been enriched by American capitalism and prosperity, and has no trouble

shitting on our country. She should be unseated during the session,removed in handcuffs shipped home to the warlord via post haste.

Most is delivered to the Afghan Central bank where it is distributed to NGO's,and separate piles of cash are delivered to the doorsteps of corrupt Taliban leadership. Funds authorized courtesy U.S Congress.

At the beginning of the family merger, it was reported This included not only family dynamic integration but also integration of forces and multiplication of force, the assignment of selected ranks of Taliban (Captain) level field commanders embedding in AQ ranks and vice versa, to establish unity of operations and command, but also interchangeable in some areas.

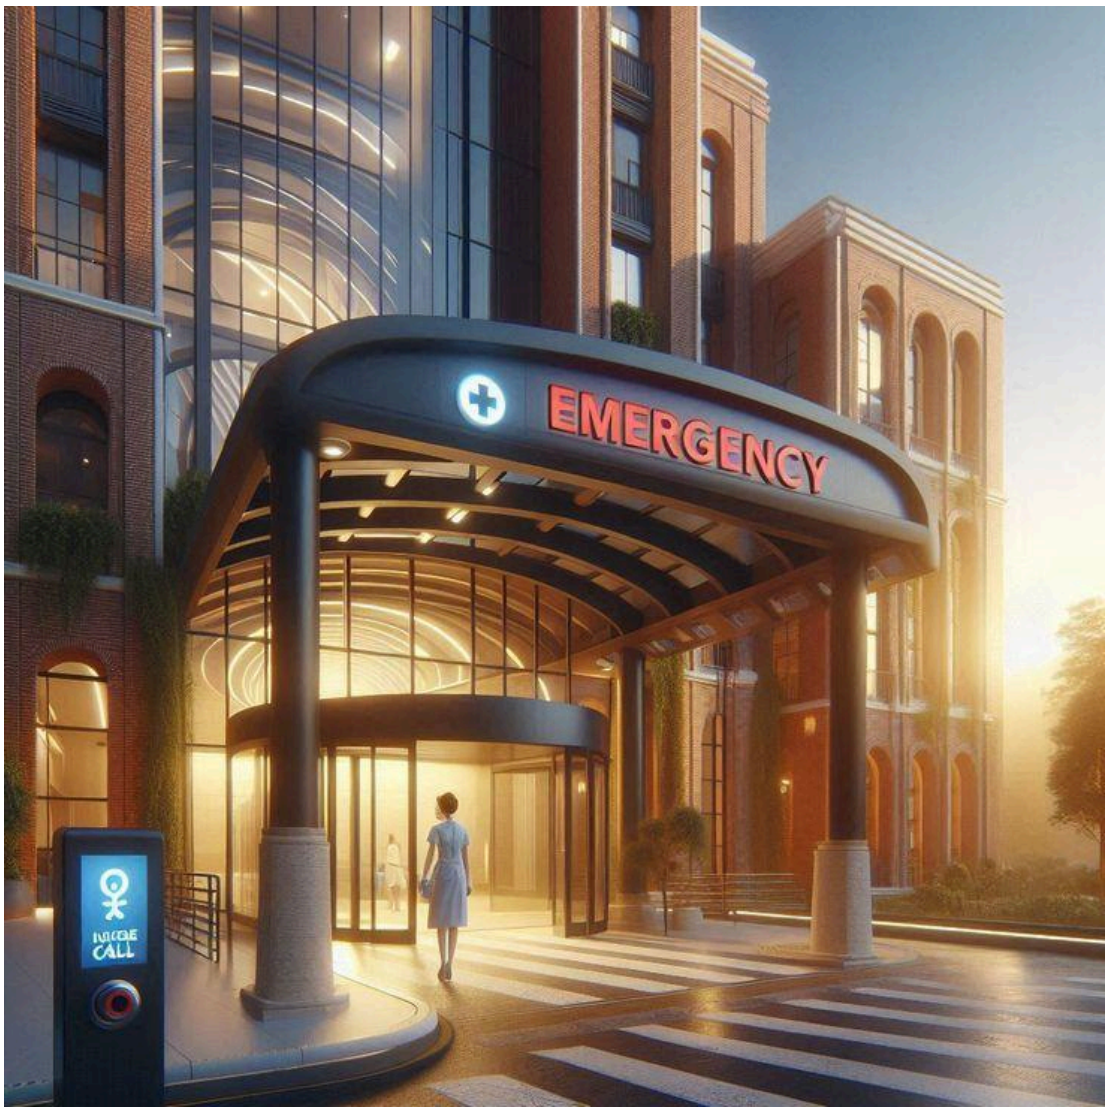
It's interesting watching them use what would seem to be US modeled restructuring that has been completed for some time, according to sources. The plot was initially planned in at least three phases.

The first phase involves multi-aircraft skyjackings with suicide bombers wearing specialized vests laden suicide vests (SVIEDs) with peroxide-based explosive mixtures that produce ethylene glycol dinitrate or nitroglycerin upon chemical reaction.

These "Invisible Bombs" are designed to evade traditional detection technologies and K-9 units, making them a particularly insidious threat. The vests are equipped with "dead-man" switches (possibly 2) and remote cameras, allowing for controlled detonation even if the operative is incapacitated, by way of remote. Whether the operatives utilize or go without 'command and control' (C2) .The attacks alone will still have a catastrophically positive/negative impact on these coordinated attacks from their view.

Subsequent phases include highly coordinated mass shootings and widespread bombings targeting soft civilian targets such as elementary/middle/high schools,college or University campuses, fairgrounds,shopping malls, civic centers, concert venues, your neighborhood park playground;The specific targeting, raids, siege of Tier-1 and 2 hospitals, houses of worship (Christian/Jewish), and major public events like Olympics or FIFA World Cup.

Hospitals will be priority targeted for hasty occupation and hostage taking operations (raid), aiming to kill medical personnel (security,LE K-9,surgeons/nurses/med staff/EMT/Medics) and incapacitate core trauma care capabilities for the entire affected communities and regions.



NOTE: Many trauma victims who would be traditionally be “saved” by being swiftly prepped, transported to an advanced medical provider or “higher level of care” as we say, such as a trauma surgery at a Tier-1 trauma facility, will simply not be possible with ER’s under siege, specialty surgeons, Nurses, medical support staff are also wounded or deceased.

This stands true not only for victims of the actual attack, but for any number of folks who (for whatever reason) may need trauma care like in larger counties (on the opposite side of town) vehicle accidents,gunshot wounds, knife/saw injuries, heart attacks, strokes, any type of life injury or surgery.

The whole hospital will be useless, requiring any in-bound patients to be immediately re-routed (priority dependent) to a non-affected hospital with trauma capabilities. In some instances the distance is 50-100+ miles.

Helicopter resources for complex coordinated terror attacks of this nature are already a limited resource, that most police/fire agencies are already lacking in capacity, at regular baseline operating levels, for most regions.

Aircraft Downed for Maintenance/Parts/on Order-Backed -Up Supply Chain Concerns

Continual req. Logging/Maint Flight Hours/Reduction Man-Hours/Recession

Increased fuel expenses for Operation/Reduced Federal Funding

Affected suburban areas especially those frequently incurring wildland fires, mud slides, disaster declarations, evacuations, recoveries and have built up their ‘air operations assets’,capabilities and resources over time.May already have a multi-purpose “Air Fleet” at their disposal and are at an extreme high advantage regarding this type of mission essential resource.

Helicopters are regularly used in commercial situations like aerial survey,tours,news agencies but heavy transport helicopters, and utility copters like UH-60/HH-60/Bell/Old-Hueys are used for local Air, Search & Rescue,Mountain & Ocean/Lake rescue,Urban Search+ Rescue, Medical Casevac, Blood+Organ Transport, and also conduct a wide variety of special missions using different sensor types like Radiological Detection & Air Sampling for quality or elevated properties.

A sharp increased volume of patients that require air transport will necessitate all off-duty Fire/EMS/LE for immediate duty recall, activation of all locally trained volunteer field medical personnel

(RedCross,CERT Team,Team Rubicon,Civil Airpatrol,ROTC, etc),trauma Supplies (tourniquets, bandages,gauze,compress', etc) coordinated staging and medical triage setting the patients order of injury priority of care and transport.

NOTE: Law enforcement vehicles will be identified prior to kick off event, targeted, pre-surveilled, sabotaged for destruction with 'sticky bombs' to essentially shunt any effective emergency tactical responses,leaving communities to fend for themselves;this eliminates any effective outside LE 'resistance' to terrorist savage killing rampages.

In short order, this will allow for the terrorist to achieve extended "**Time on Target**" or provide for, more ample, uninterrupted time to SLAUGHTER,drastically increasing body count objectives.

Referencing 'Command Elevens' ' last assessment in 2025

"We have determined mid-tier cities are being targeted for the following reasons.

'SOFT TARGETS

Major cities often have heightened security, greater counter-terrorism resources, and more robust surveillance systems, mid-tier cities, while still populous and symbolically important, usually lack the same level of protection, making them more vulnerable.

MAXIMIZED DISRUPTION

Attacks in these cities can still generate significant media coverage and public fear. By striking locations that are not typically seen as likely targets, terrorists can amplify the psychological impact and spread anxiety across a wider region.

SYMBOLIC IMPACT

Mid-Tier cities often represent the "heartland" or more everyday aspects of society. Attacking these locations may be aimed at demonstrating that no place is immune from violence, thereby undermining the sense of security in communities that might otherwise feel overlooked by national security priorities.

OPERATIONAL LOGISTICS

These cities may have infrastructure and transportation hubs that can be exploited for logistical support or as targets that cause broader disruption without the need for the high-profile elements of larger urban centers.

ADDITIONAL POINTS

- Hospitals and trauma centers make high-casualty targets
- Smaller law enforcement budgets that large cities often prohibit funding for

certain counter-terrorism measures including, but no limited to:
o Advanced intelligence analysis
o Surveillance technology
o Tactical counter-measures
- Low federal presence = delayed counter-measures
- Disrupt “”

SOURCE: COMMAND ELEVEN

The attacks on soft targets like schools and houses of worship (*Synogogues,Churches,Mosques,Temples*) are driven by pure hatred and ideological revenge,extreme interpretations of Islamic doctrine. They are seeking to maximize psychological terror and societal disruption. The terrorists plan also extends to critical infrastructure such as electric grids, water treatment, and communication providers.

Culmination events will likely result in something similar in nature to the October 7th attack on Israel citizenry, whereas, the terrorists will proceed to end thier SEIGE by entering quiet U.S suburban neighborhoods, moving from house to house, essentially conducting US Af/Iraq room clearing style “RAIDS” without any rules of engagement to protect us (ROE), systematically killing, maiming, raping, torturing US citizens until physically stopped.

The tactical doctrines and small arms tactics used by jihadist groups, and the operational differences between Al-Qaeda’s precision-oriented “vanguard” style and ISIS’s shock-and-awe “mass attrition” approach indicate this will be a bloody unexpected battle. Both groups employ small teams with specific roles like two-man “pairs” for rapid urban attacks and five-man “squads” for complex assaults.

The tactical formations used by jihadist groups. Two-man teams, “The Pair,” specialize in mobility and rapid engagement, often using overwatch and bait tactics to draw in and then attack first responders. Five-man teams, or “The Squad,” execute more complex maneuvers like L-shaped ambushes and high-rise swarming attacks, employing machine guns for suppressive fire and coordinated breaching with explosives.

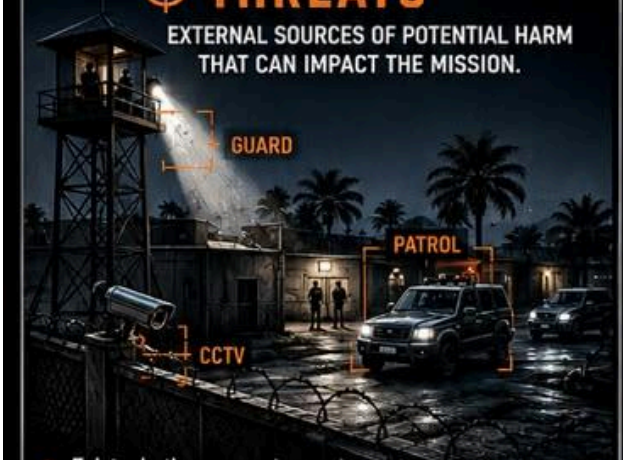
THREATS VS RISKS

SEE CLEARLY. PLAN DEEPLY. STAY UNSEEN.

/// UNDERSTAND THE DIFFERENCE. MANAGE THE MISSION. ///

THREATS

EXTERNAL SOURCES OF POTENTIAL HARM THAT CAN IMPACT THE MISSION.



- Exist whether you act or not
- Independent of your decisions
- Can be observed, detected, or anticipated
- Require identification and understanding

EXAMPLES

- ENEMY PERSONNEL
- SURVEILLANCE SYSTEMS
- COMM SIGINT / INTERCEPT
- K9 UNITS
- ENVIRONMENTAL HAZARDS

RISKS

THE POSSIBILITY OF A THREAT CAUSING HARM BASED ON CONDITIONS AND CHOICES.

- Dependent on context and decisions
- Calculated as likelihood × impact × exposure
- Can be influenced, reduced, or accepted
- Require assessment and prioritization

EXAMPLES

- ROUTE DISCOVERY RISK
- COMMS INTERCEPT RISK
- EXFIL RISK
- IDENTITY COMPROMISE RISK
- TIMING RISK

HOW THEY WORK TOGETHER

1. IDENTIFY THREATS
Map all potential threats in the operational environment.

2. ANALYZE CONTEXT
Understand mission goals, terrain, timing, assets, and enemy behavior.

3. ASSESS RISKS
Evaluate the probability and impact of each threat based on exposure.

4. PRIORITIZE
Focus on risks that pose the greatest danger to mission success.

IDENTITY COMPROMISE	HIGH
EXFIL	MEDIUM
COMMS INTERCEPT	LOW

5. TAKE ACTION
Mitigate, avoid, accept, or transfer the risk. Execute and adapt.

STREET SMART

AWARE. ADAPT. ADVANCE.

Urban awareness, positioning, and decision-making for real life.

WHAT IS STREET SMART?

It's the ability to navigate people, places, and situations using awareness, instinct, and experience.

- You notice what others miss.
- You understand what's really going on.
- You make better decisions in real time.
- You protect your peace, safety, and future.

OBSERVE	ADAPT	UNDERSTAND	PROTECT	DECIDE
See the whole picture.	Adjust and keep moving forward.	Read people and situations.	Keep your energy and boundaries.	Choose the best move.

THE MINDSET

- Observe everything.
- Trust wisely.
- Think ahead.
- Keep your options open.
- Stay calm, stay in control.

THE 6 PILLARS OF STREET SMARTS

01 OBSERVE

Watch everything: body language, tone, surroundings, patterns. The more you see, the more you know.

02 READ PEOPLE

Learn to spot lies, insecurities, intentions, and emotions. People will show you the truth—if you're paying attention.

03 KNOW CONTEXT

Every place, time, and situation has a different set of rules. Know where you are and what matters there.

04 THINK AHEAD

Anticipate outcomes. Plan your moves. Always think one step ahead so you're never caught off guard.

05 STAY ADAPTABLE

Things change fast. Adjust your approach, your attitude, and your plan without losing focus.

06 PROTECT YOURSELF

Guard your energy, your peace, and your information. Not everything—and not everyone—deserves access.

READ THE ROOM: WHAT TO CHECK

- **ENVIRONMENT** — What's happening around you?
- **TIMING** — Is it the right time to move?
- **BODY LANGUAGE** — What are people really saying?
- **PATTERNS** — What keeps happening?
- **TONE & ENERGY** — How does the vibe feel?
- **RED FLAGS** — What doesn't feel right?

⚠ IF SOMETHING FEELS OFF, TRUST IT.

DO'S AND DON'TS

DO	DON'T
Listen more than you talk.	Overshare or reveal too much.
Ask questions and stay curious.	Assume or jump to conclusions.
Keep your circle small and solid.	Trust everyone or chase approval.
Walk away from what doesn't serve you.	Stay where you're disrespected.
Keep learning from every experience.	Repeat the same mistakes.

MANAGE YOUR SIX

- Your 12 is forward. Your 6 is behind you.
- Use brief checks instead of nervous staring.
- Small pace changes can expose who is watching you.

CHECK TECHNIQUES

- Quick glance (Rearview mirror check)
- Use reflections (Windows, store fronts, vehicles)
- Natural turns (At corners, crosswalks, or doorways)

DECIDE EARLY

- If something feels wrong, create distance early.
- Cross the street, enter a public business, or restart your route.
- Do not wait for certainty when the pattern is already wrong.

1. NOTICE — Pick up the cue. Trust your gut.

→

2. CREATE DISTANCE — Move away, change lanes, add space.

→

3. RESET — New route, new angle, new context.

PRO TIPS

- Head up, hands free, path clear.
- Confidence should look calm, not confrontational.

PATTERN RECOGNITION IS POWER. PRACTICE EVERY DAY.

SEE	THINK	POSITION	MOVE	WIN
Observe everything. Details matter.	Understand the situation.	Control space. Keep options open.	Take decisive action.	Get home safe. Every time.

[RDCTD]

STAY ALERT. STAY ADAPTABLE. STAY IN CONTROL.

VEHICLE RAMMING ATTACK

PAST INCIDENTS

• In August 2022, a criminal intentionally drove his vehicle into a Berwick, Pennsylvania crowd gathered for a charity fundraiser, killing one person and injuring 19 more. The driver subsequently killed his mother in another location.

• In June 2021, an attacker in Ontario, Canada, drove his pickup truck into a Muslim family wearing traditional clothing while waiting at an intersection, killing four family members, and wounding a fifth.

• In November 2021, a criminal drove through temporary barricades and into a Christmas parade route in Waukesha, Wisconsin, hitting participants. Five people died and 62 suffered injuries.

• In October 2017, an ISIS-inspired individual used a commercial-grade rental truck to attack pedestrians on a busy bicycle path near lower Manhattan, New York City, killing

eight and injuring more than 11 others.

A pellet gun and a paintball gun were

recovered from the scene.

• In April 2017, an attacker used a stolen 30

ton commercial truck to target pedestrians

in a busy shopping area in Stockholm,

Sweden, killing four people and injuring 15.

Undetonated explosives were found in the

truck.

• In March 2017, an assailant used a

rental car to target pedestrians walking

on Westminster Bridge in London, United

Kingdom, killing four people and injuring 40.

The assailant abandoned his vehicle and

proceeded to Parliament, where he killed a

police officer with a knife

POTENTIAL INDICATORS

The use of vehicles as weapons often has few or no observable

indicators, but identifying and reporting suspicious activities may

assist in detecting a potential vehicle-ramming attack plot. Any one of these activities may be insignificant on its own, but when observed in combination with other suspicious behaviors – particularly advocacy of

violence – they may constitute a basis for reporting.

- ➔ • Reported theft of large or heavy-duty vehicles.
- ➔ • Observed difficulty in explaining the planned use of a rented vehicle.
- ➔ • Exhibited nervousness during vehicle rental discussion and insistence on paying rental fees in cash.
- ➔ • Inability to produce required documentation, such as a valid
- ➔ driver's license or appropriate endorsement for the class of vehicle sought.
- ➔ • Observed difficulties in operating a rented vehicle, such as a large
- ➔ or heavy-duty truck, indicating a lack of familiarity from prior usage
- ➔ or experience.
- ➔ • Loitering, parking, or standing in the same area over multiple days
- ➔ with no reasonable explanation.
- ➔ • Unexplained use of binoculars, cameras, and recording devices.

WHAT SHOULD PEOPLE DO IN CASE OF A VEHICLE RAMMING ATTACK?

• Run to the nearest safe area while moving away from the source of hazard.

• If a fall occurs, curl into a protected position and try to get up as soon as possible to avoid being trampled.

• If no rapid escape is possible, seek cover behind any available natural or artificial objects that eliminate direct line of sight from the source of hazard.

• Call 9-1-1 and remain alert for potential secondary attacks.

• Render first aid when safe to do so.

• Maintain situational awareness while helping others.

• When help arrives, follow instructions given by law enforcement

and first responders

AL QAEDA-

AL QAIDA- *THE BASE*

Al-Qaeda and ISIS differ in operational philosophy: Al-Qaeda emphasizes precision strikes and survival, targeting symbolic or high-value assets,while leveraging propaganda for exposure; ISIS seeks mass casualties and uses shock tactics with high-volume firepower, often encouraging martyrdom. Both groups have adapted their tactics to hybrid models combining small arms with IEDs or suicide vests for maximum effect.

An analysis and comparison to other jihadist tactics like those of state-sponsored irregular forces like Hezbollah, Iranian Quds Force, Venezuelan Special Forces, and Mexican drug cartels, highlight variations in training, operational goals, weaponry, and methodologies.

Al Qaeda planners like Hamza and closely advised by senior war fighter,operative,Sura council member, logistician, planner, strategist- **Saif al Adel** a long time trusted bin Laden family confidant and initial founding member. He surely recognized all these mix/match differences in warfighter training, capabilities and outcomes long before they re-established, re-built and re-commissioned the new training camps in Afghanistan. They likely took the best tactics from each group and blended for optimization.

It appears to be a deliberate effort to mirror the specialized training protocols often observed within the U.S. Special Operations Forces (SOF) where instruction is broken down into “training blocs” or “moduals”.

I’ve been advised that the Afghani training facilities, some of which are (formerly US constructed,occupied during wartime) and consequently abandoned, are even rated as ‘Tier-1’ state of the art facilities used

by U.S SOF previously to perform their own mission training, but also to train-up indigenous forces.

In these facilities they emphasize a wide array of subject-specific and targeted skill development across multiple critical areas. These include rigorous programs for physical conditioning and agility, advanced marksmanship, individual movement techniques, and highly coordinated tactics such as team dynamics and close quarter combat (CQC), conducting raids, managing barricaded subjects, and executing ‘city siege’ scenarios.

APPLICATION OF ADDITIONAL WARFARE ON U.S POPULATION

Additionally, there are focused modules (actual camps) on more extreme methods, including execution tactics like beheading, obtaining videoed confessions,creating & disseminating propaganda + recruitment content, bomb making material procurement and safe handling of Improvised Explosive Device (IED) materials, as well as, the intricate processes involved in their design, safe construction, and operational deployment for either remote detonation or suicide operations. If Iran or Hezbollah had any influence on the camp's output.

There will be a “tactical drone operator” and “Drone Tactics” schoolhouse as Hezbollah has already designed, deployed, and developed their fieldcraft in drone warfare against Israel. Iran is a large world supplier and exporter of many drones designed for military application, Hezbollah has designated teams that use them, Russia has deployed them in the Ukraine Conflict.

All of this could theoretically be deployed within the United States as once they are inside which they are, all source materials for drone warfare are open market in the US. No doubt the federal government will close that loophole placing restrictions so buy your toys boys, might want to get the kids a few each also 1 spare. Or buy different ones that can accept different payloads,I.E camera gimbal, 4k video+Thermal device, audio microphone,loudspeaker/PA system, release claw,WHITE light etc.

Get decent controllers, preferable removable FAA GPS locator module (not advocating removal). Pelican type case for tools, monitors,

equipment. Perhaps a laptop, with aviation tracking Back up batteries for everything. If conducting night reconnaissance against a professional element it is advisable to black out any warning or indicator lights on your surveillance craft platform to reduce obvious signature (not advisable near airports).

The use of a personal drone can be extremely beneficial for the collection of on scene operational,strategic still imagery ,audio,and realtime video intelligence but security must be used to ensure the apparatus isn't traced to your position if collecting on a formidable adversary. Use for advanced counter-surveillance on suspicious terrorist surveillance observing your or nearby properties, use for neighborhood aerial reconnaissance, likewise strap a camera on your RC Car to see if the jihadi terror cells are moving from house to house-to determine evac time or time till armed standoff, used for observing enemy fighting positions, and barricaded or hostage subjects,utilized for observing or destroying terrorist arms caches.

[[[[[[[[[[[[[[[]]]]]]]]]]]]]]]]iedbombimage

The overarching emphasis appears to be on achieving tactical consistency and elevated proficiency among the terrorist recruits. It has been verified that over forty distinct training facilities or camps have been actively operating for an extended period throughout the Afghanistan-Pakistan regions.

Collectively, these camps are estimated to have already processed somewhere between 60,000 and 80,000 individuals, a daily growing number, effectively establishing a considerable and dangerous lethal force.

NOTE:The whole US intelligence apparatus (18 intel agencies-USIC)have had basically NO eyes on this region,since the disastrous pull-out of Afghanistan by former President Biden.

It has left the whole region without adequate intelligence collection, monitoring and analysis hence any intelligence we do have is a result

of Askari Media, Sarah Adams,Khalid @ Command Eleven, LTC.Scott Mann,LEGEND,Warrior Networks, NGOs, UN reporting etc.

However the information we do have is derived from true,authenticated, vetted “boots on ground” human source assets (HUMINT). Some of which had direct embedded access within training facilities.We also have other corroborating intelligence sources such as “War on the Rocks” mid-east topics publishers etc.

WHAT'S REALLY ON THE TABLE

Further intelligence strongly indicates that several of these camps are specifically dedicated to training suicide bombers, often referred to as "**Shahid or Shohada.**" These individuals are most likely being groomed from different young age brackets and prepared for eventual deployment in targeted operations.

These trained and experienced terrorists have already been forward deployed to the United States, Europe, Africa, Iraq, Syria, and even have participated in the Oct 7th attacks. Some plan to return for a biblically mimicked grand finale.

In the West they (jihadi operatives) are generally still laying dormant remaining in the shadows avoiding detection, but several radical Imam’s representing local US Mosques the assumed non-violent insurgents (civilizational jihadist by Pen) can NOT help themselves from spewing the violent rhetoric similar to Iran’s, usually taking verses from the Quran,Hadith, Sunnah or Milestones, thus there are now hundreds of US based social media videos (youtube/X) with radical Imam’s calling on their communities to stand up (Ummah) for the violent and non violent ‘overthrow’ of the United States government.

In light of the recent controversies, narrative distortions, and falsehoods propagated by the White House and social media regarding the sudden resignation of his Presidentially appointed and Congressionally nominated role, Retired Chief Warrant Officer (CW3) **Joseph C. Kent**, who served most of his career in the U.S. Army Special

Forces and as a CIA Par-military Officer (PMO), as Director of NCTC he has made the "**THREAT**" unmistakably clear to both the US public and various government sectors.Despite doing so the partisan media hardly picked up the story.

During this particular testimony he made it an official part of the record when he testified under oath that, after internal review and investigation, NCTC had concluded that during the Biden admin, approximately ***eighteen thousand*** **(18k)** ***known*** or ***suspected terrorist*** **(KSTs)** had successfully bypassed US CBP security controls, penetrated border perimeter barriers with ease, or, entered the United States illegally and, at the behest and leisure of the treasonous former **DHS Secretary Alexanjro Mayorkas.**

Former U.S President Barack Hussein Obama AKA Barry Sotero signed an international agreement between the United States and the United Nations entering the "GLOBAL COMPAQ for MIGRATION". An agreement that U.S persons, if asked, would likely NOT authorize.

This agreement is what initiated and permitted the illegal invasion.

In his capacity as an Executive Cabinet member, Mayorkas was positioned within a hierarchy that mandated direct reporting to the 'acting' US President at the time (Biden), who was both mentally and physically incapacitated.

He possessed the requisite reach and direct oversight over US foreign and domestic policy, along with operational control of all DHS-CBP/INS/ICE/CISA/FEMA/USICS functions. This encompassed management, rule determinations, and the issuance of 'operational border directives' that instruct border enforcement officials (line officers) on immigrant entry approval, denial, and handling protocols, including 'parole', notices to appear (NTA), asylum procedures, and criminal proceedings, etc.

Border security was solely his (Mayorkas') domain and his Cuban Communist family heritage, but especially his leftist political ideologies (may be derivative of Judaism) are highly likely fueled by socialist sympathies.

A primary example of high level government KEY-Management penetrations and infiltration by the Globalist-Socialist/Marxist/Communist+possible state sponsored apparatus.

In my opinion having watched many endless hours of his untruthful testimony to Congress and several committees. I believe it's likely Mayorkas embodied the ethos of our adversaries, including the United Nations, WEF, WHO, and other participants from globalist entities such as Bill Gates, Larry Fink, and Blackrock, as well as Anthony Fauci.

Their objectives, represented by AGENDA-21/30, have likely been transformed into reality, potentially amounting to acts of sedition and subversion in addition to treason.

He purposefully directly facilitated the illegal INVASION of the United States with unauthorized foreign nationals violating the US Constitution by NOT protecting or preventing us from INVASION and subsequent violence.

MOST RECENT INWARD LOOKING THREAT ASSESSMENT;

Command Eleven recently released a Threat ASSESSMENT SERISER.IT HAS ASSESSED THAT:

"By shifting away from tactical profiling and human intelligence (HUMINT) operations in these enclaves, the Western intelligence framework has lowered its defenses against low-signature, decentralized threat networks. This intelligence deficit, combined with the presence of hidden logistical safe havens, significantly increases vulnerability to asymmetric domestic attacks against soft targets, transport nodes, and critical infrastructure within the Western Hemisphere.

Posture Shifts Within the Western Intelligence Community

The contemporary Western intelligence architecture is undergoing its most significant structural realignment since the post-9/11 counter-terrorism expansion. Confronted by accelerating geopolitical competition, the Office of the Director of National Intelligence (ODNI), the Central Intelligence Agency (CIA), and the Federal Bureau of Investigation (FBI) have systematically redirected their primary collection, analysis, and operational assets away from non-state actors toward peer and near-peer nation-state adversaries.

This strategic reorientation has fundamentally transformed the internal asset allocation models of the intelligence community. Counter-terrorism divisions, which previously commanded priority funding, specialized personnel pools, and advanced surveillance access, have experienced steady budget attrition and personnel drawdowns. Specialized tactical teams and counter-terrorism analyst cadres have been reassigned to desks monitoring state-level electronic warfare, cyber-kinetic networks, and regional conventional mobilizations.

The structural impact of this transition is an acute degradation of long-term tracking networks focused on asymmetric threats. Within the domestic space, the FBI's Joint Terrorism Task Forces (JTTFs) have experienced a reallocation of field agents toward counter-intelligence and corporate espionage investigations.

Concurrently, the CIA's counter-terrorism operations have reduced their footprint in traditional regional sanctuaries, limiting the forward collection pipelines that historically provided early warnings of transnational threat vectors. This systemic posture shift operates under the strategic assumption that non-state actors are secondary threats that can be managed via automated technical means, creating a critical vulnerability that sophisticated insurgent networks exploit by adjusting their operational profiles.
Core Collection Deficits and Profiling Deficits
Alpha-3-1 - Western Domestic Intelligence Collection Deficit Matrix

The primary consequence of this nation-state pivot is the emergence of deep collection deficits across both domestic and foreign intelligence fields. The most severe degradation has occurred within the human intelligence (HUMINT) framework, which remains the only reliable methodology for intercepting insular, non-state plotting.

Domestic intelligence agencies have largely dismantled the long-term, deep-cover informant networks that previously monitored radicalization nodes within insular metropolitan enclaves. This deficit is reinforced by an institutional shift away from proactive tactical profiling. Fearing political friction and judicial challenges regarding over-reach, federal agencies have restricted the parameters under which field offices can initiate preliminary assessments on suspected radicalization hubs.

The resulting tracking gap means that individuals executing early-stage logistical operations – such as identity manipulation or localized fundraising – rarely trigger the automated behavioral matrices used by counter-terrorism databases.

Concurrently, signals intelligence (SIGINT) capabilities managed by the National Security Agency (NSA) face technical limits when encountering the communications methodologies used by modern threat actors. The widespread adoption of end-to-end encrypted (E2EE) messaging applications and decentralized, serverless communication networks has degraded the efficacy of broad-spectrum metadata collection.

Because current SIGINT priorities prioritize tracking foreign state-level cyber threats, the processing power allocated to identifying low-signature, localized non-state communications has decreased. This allows specialized insurgent networks to coordinate logistical steps beneath the collection thresholds of Western agencies.
Infiltration Dynamics Within Unintegrated Diaspora Enclaves

As Western intelligence collection assets decrease, the operational space available to transnational threat networks within unintegrated diaspora enclaves expands. These enclaves, found across major urban centers in North America and Western Europe, provide a protective social buffer that shields clandestine cells from external law enforcement detection.

Infiltration does not rely on high-profile public recruitment campaigns. Instead, it occurs through insular, peer-to-peer social networks, underground religious study circles, and private linguistic cultural associations. Threat networks leverage these spaces because they operate with minimal oversight from municipal authorities or broader community leadership.

Within these unintegrated pockets, radicalization agents exploit cultural isolation and localized grievances to quietly build a distributed, low-signature support base.

The social insularity of these enclaves creates a high-barrier operating environment for law enforcement. External investigators or unvetted personnel stand out immediately, neutralizing traditional local police intelligence tactics. Furthermore, because these communities often maintain a deep distrust of federal law enforcement agencies, cooperative tips and community-led security interventions are rare.

Clandestine cells exploit this dynamic to establish stable safe houses, route illicit capital through local commercial fronts, and manage cross-border procurement pipelines within the heart of Western metropolitan zones, effectively using the host nation's legal and social frameworks as a protective shield.

Domestic Attack Vulnerability Mapping

The intersection of collection deficits, reduced profiling parameters, and unmonitored domestic safe havens has elevated the vulnerability of the Western Hemisphere to an asymmetric domestic attack. Without reliable HUMINT indicators to disrupt plots during the planning phase, the threat timeline shifts from early-stage interdiction to active incident response.

The contemporary target profiling matrix favored by decentralized transnational networks prioritizes low-cost, high-impact operations against vulnerable targets that require minimal specialized hardware or prolonged logistical trails:"

ADDITIONAL THREAT VECTORS ON THE SPECTRUM

The only good news here is that, the most recent intelligence reporting indicates that since the main attack did not occur within the designated "operational window" there were welcomed major setbacks.

Since then, it's also been learned that the Command and Control (C2) element of the plot was severely disrupted by Pakistani militaries counterterrorism (CT) and intelligence operations launching massive strikes on Taliban strongholds and perhaps also Pete Hegseth nailing Iranian territories at the direction of the Commander in Chief

neutralizing multiple layers of Iranian IRGC leadership was possibly/highly likely instrumental in causing the massive setback for the planned US attack.

I have no internal WH sources on the subject, but plans definitely temporarily changed in the field.

They had literally planned to operationally, step by step, monitor (via command center),social media, radio waves for local real time U.S news feeds, and control the direction,ops tempo of the U.S attack (communicating digitally with encryption) from both Afghanistan, Iran and, even a third remote country location, by providing the on ground attackers with realtime information on where LE response is located, staging areas, media helicopter counts and locations etc.

As I see it. Any one member of the homeland plot could break silence and launch a lone wolf attack as is also reflected in prior Command Eleven assessments and recently declared- HIGHLY Suggested by digitally published Islamic State Media (06/20/2026). Similarly, a group could form from the compartmentalized individuals who are supposed to remain operationally silent and 'DARK' until contacted by their 'handler' (basically a supervisor or Sergeant) and be completely autonomous.

However, perhaps the handler (s) all have a 'Plan-B' or 'C' consisting of the now Team Sergeant contacting each operative listed in his assigned region, on his particular target assignment roster, to call for rapid assembly of a **2,4,6,12** man team for any one target or series of strikes.

Or they could pick up where they left off anytime, proceeding with the original plot. Truth is, we currently do not know what "PLAN-B,C" is going to be, hence indefinite 'stand-by' may be the position we are forced to take, unless new intelligence is developed.

Although my intent is mainly focused on the operations of the "PAUSED" Homeland Plot. We can't simply ignore the other threat vectors challenging the United States.

The CARTEL THREAT

The diminished capacity of the Cartel de Sinaloa (CDS), the consolidation of the 'Cartel Jalisco New Generacion' (CJNG), internal conflicts, territorial disputes, red line enforcement and significant profit losses resulting from President Trump's border security policies and subsequent enforcement protocols all contribute to a complex situation for Cartel bosses; nevertheless,Sinaloa & CJNG continue to pose a substantial threat to the US population, Mexican Nationals in their homeland and associated dispora.

To briefly capitalize here on the level of societal troubles and continual damage, lack of humanity as a whole, suffering, generational traumatization of whole societies, depravity of not all, but much of the Mexican population faces.

Still they remain honest, humble, proud,resilient, hopeful,faithful, hardworking good people, the vast amount being of Christian or Catholic faith. This would likely be best with stats.

A recently updated regional analysis now includes **Mexico**, explicitly tracking relationships with the Chinese Communist Party (CCP), alignment with socialist/Marxist ideologies, and official transparency scores.

Corruption metrics are based on the latest Transparency International Corruption Perceptions Index (CPI), which scores countries from **0 (Highly Corrupt)** to **100 (Very Clean)**.

Key Takeaways from the Data

- **The BRICS and CCP Distinction:** Subscribing to a socialist ideology is **not** a prerequisite for CCP alignment. Pragmatic, deeply right-wing nations like **Peru** and **Ecuador** host massive CCP investments or trade agreements, driven entirely by commerce rather than shared politics.
- **The Corruption Divide:** Ideological alignment correlates heavily with institutional strength. The authoritarian Marxist regimes (**Venezuela, Nicaragua**) suffer the lowest CPI scores globally, caused by institutional co-optation. Conversely, stable democratic systems like **Uruguay** achieve exceptionally clean scores despite their center-left leadership.

Know Thy Enemy

Where might our adversary come from these days? What is his (the cartel's/AQ/ISIS/MB) attitude towards America and Americans? What is most important about his own lands?

When it comes to drug dealers, cartel members, associated operations one automatically associates it with the 6,3 ft,weight lifting, steroid/prison “jacked up” upper, battle hardened street smart,bulging forearms, facial tattoos for effect, ex-convict, thug type criminal comes to mind.

In all honesty, those guys do very much exist and regularly run a operation or at minimum provide enforcement action on behalf of the organization.

When we begin battling against a Cartel member on the city streets would’t you wonder (hopefully beforehand) or want to know, is this guy gonna take those kids hostage ? Is he only shooting at me, or seriously trying to kill “all” including women and children?

Might he have a moral compass, yet be in desperate need of course correction, must I shoot him in the face? If our guns were placed on the table, could we break bread, have a cold beer and have discussion on the commonalities we share, that would stop us from warring all together?

Well, that’s wishful thinking at its best, actually its Diplomacy and typically the way us Americans try and resolve differences, and trying to find an equally agreeable solution to a shared problem set.

In this current instance,and contrary to popular belief, we’ve gone clear past that stage,they have been at war with us for a long time in

their minds. Not quite like the jihadis view of Americans as invading, corrupting and occupying their lands.

Perhaps, this is not true for all Mexican citizens, but many including violent cartels think we have stolen Mexican land and that we owe it back to them.

Some (many) believe in Mexico taking it back at all cost and are affiliated with the greater leftist communist ‘Chavista’s Movement’ and the ‘Sao Paulo Forum' that's overtaken most of South America. This is President Trump’s dilemma, when it comes to tackling “Securing the Entire Western Hemisphere” aka ‘Hemispheric Security’ aka “DonRoe Doctrine”. Regardless, our land was not stolen, it won, I’m not doing history lessons here but these folks believe this, even members of the Mexican and US government.

Regardless, clear intent has done the following.

IRREGULAR WARFARE HARNESSED AS CHEMICAL WMD DELIVERY CONTINUES, COURTESY OF CARTELS

They systematically penetrated our borders for the explicit purposes of first profiting anyway possible off The United States, it’s people, chemically addicting portions of the population, even if it's a known proven fact their product has a 50-50 chance of indiscriminately

killing or severely harming whomever or whatever living organism it comes in contact with.

They must have NO conscious knowing that 3,5,6,8,12,16,year old kids are inadvertently ingesting these pills, some thinking they are candy (due to color scheme) ,or accidently by a toddler who found it on the babysitters table or floor, or the innocent 16 year old kid who has straight A's in school, a future scholarship locked in, great athlete, but caves to social pressure of so called 'friends' who obtained a free joint from some random source. Unknowingly decides to explore a few puffs of a marijauna joint for the first time that's intentionally laced, dead. The rookie (26 yr old) cop who forgets to don his protective gloves (PPE) while performing a body search and quickly ripping a plastic baggie full of powder (aerosolized) out of the suspect's pocket,quickly absorbed through pores and inhaled. Of course there's the "professional" normal person, excellent at their profession, married, kids and very family oriented,volunteers kids soccer team,Scout Master- takes the family skiing, hyper-extends the knee with torn miniscus, is placed on doctor prescribed pain meds, continues meds post surgery,then post therapy, and never gets off them.

After several years on the doctor recommended meds, suddenly doctors start getting in trouble,it took them years to publicly recognize associated deaths-increased addiction, they tighten up scripts-issue blanket verbal warnings and continue prescribing, your surgery wasn't successful and are now hooked. The doc cuts you off, if educated and a nice guy reduces 90 pills to 45 or 30 pills per bottle tells you to wean yourself off safely. At some point, you run out and have not followed the tapering method,somehow you try heroin for the same effect, but better is injecting or smoking Oxycontin and continue graduating to the next thing until you realize, you have lost your wife, family, career, not always that order etc. Many of them end up dead first, nobody ever realizing he was a closet addict all along.

Then there's the millions of Americans who are actually physically, mentally and 'chemically' addicted, highly tolerant and RESISTANT to this poison and that's fact. I'm speculative but I believe many like this were soulless to begin with and never had any type of conscious

or heart, maybe some were even demonic if you want to be honest because the way they act is like they did not really ever know how to be social, conversate, experience love, joy, emotion, sadness, shed a tear, empathy, success, any other way, but the drugs changed that for a while, but not far into full addiction, when you think you are actually happy, all these normal and synthetic feelings are totally erased from your personality and temporarily from your heart+soul, if you even have a modicum of one left after getting hooked on this chemical poison, majority never recover, I can attest as witness its possible, usually with Gods help. Maybe they were alien lizard people

I really do not know. One thing is certain: many, many of these narcotics have been field tested in addition to the four-hundred thousand (400k) possible medical autopsies performed across the land in the last 6 years. The American victims which should be declared an American Genocide or Mass Homicide complicit, committed,or authorized by the Chinese CCP and commanded by Xiao Xiaoping, MSS intelligence, Chinese Organized Crime, Cartel de Sinaloa, CJNG other conspirators, and by proxy the Mexican Goverment.

Aside from the physiological effects of this type of “Chemical Warfare” and by deploying ingestible WMD to the U.S population other side/after effects occur to the targeted subjects like slowed motor skills, dysphoria,euphoria, delayed brain response, sedation, hallucination many times, effects of fentanyl addiction include totally wiping out the **emotions** (an intricate, necessary function of human survival), killing one's empathy while excellent trait for serial or mass murderers, on the contrary will immediately devastate a friendship, relationship but especially a ‘working family unit’ where displaying one's genuine positive and negative emotions, expressing care, love & affection is a critical component to a normal functioning relationship.

During active addiction phases and the inevitable post, drug “related death” family members and friends alike are further psychologically injured in all aspects,many continue suffering, arguments and disagreements most especially affecting the married family’s inlaws and blood family, even causing rifts between the two later on effecting relationships with grand parents who see resemblances in

their living grand child and non surviving dead son, screwed up visitation, personal attacks on each other, lawsuits, custody battles, unsettled estates, fighting over who to sue and who will be the Plantiff, trust me when I say just like suicide, addiction deaths are just as devastating to a family unit. Many carry guilt that never subsides, a small percent start using substances themselves for a variety of reasons.

The psychological trauma being inflicted travels the same path of destruction as on the normal DoD warfare continuum. If they stay alive, they have built a super tolerance to the drugs, but likely resemble something out of “Walking Dead”. Technically it's the creation of a zombie sociopath left to roam our streets. Again much of the dope supply is also tainted with Zylazine or other highly potent poisons.

Most of the addicts didn’t start using Fentanyl from the start. Many were tar heroin users prior to that, or part of the mass self-imposed Oxycontin epidemic, where American lives were capitalized on by BigPharma, before that everyone and their brother was hooked on the Vicodin or Percocet,Darvocet or good ole’ Tylenol w/Codeine- 3 or Cough Suppressant etc.

They were throwing those last three out to everyone and any reason for the longest time. Dental work,tooth ache, post root canal, of any kind, muscle tears, pulls, strains, bone fractures anything would earn you an “oversized bottle” of Vicodin or Tylenol 3 with Codeine its all ‘synthetic opiates’ called “OPIODS”, I.E poppy derivative opiates recreated in a laboratory (US),shanty shack (Mex) with chemical formulas to synthesize fake Opium aka opiods.

Now the cartels have the recipe for the most deadly thing out there thanks to the CCP and they are changing the molecules all the time, making it worse, even adding other foreign substances like heavy horse tranquilizers. They intentionally try to addict the public anyway possible to keep you coming back and if you don’t, oh well score one for the CCP, collect payment that way.

No empathy for the kids and innocent people. They continue killing the young kids, kids losing parents to the street or all together, just

look at San Francisco or Skid Row in Los Angeles as examples of a city run by a Marxist Mayor (BASS).

What once was a 3-5 block reserve for homeless addicts of all types to live on the street, is now fifty (50) street blocks filled with desperation from all walks of life and many parts of the country.

Yes, It is very true, many addicts and homeless travel the gamut (many stow away via rail) in order to live un-harrassed, outdoors, shelterless, in near perfect weather conditions and on or near California beaches.

I've heard the excuse. Well, "if you Americans didn't consume and crave the drugs there would be no demand". Get the fuck outa here. The shit is illegal or controlled for a reason. Cartels and US facilitators break our laws everyday to make contraband available to our kids, when Cartels hear our people are dropping dead like flies they don't adjust their chemical recipes to reduce deaths, they don't punish the cooks for making it too strong,they send more more of the same deadly shit. So fuck them. War and Dead is what you'll get in return.

Maybe there is some legitimacy to that answer, but where I come from in America the sober minded 'supplier' or "drug lord" likely has kids of his own (especially Mexican), like the rest of us, he has a human moral obligation to do no harm to his fellow human being "in general".

However,from their perspective, in their mind, "perhaps they are supplying drugs for their customers "pure enjoyment" and mental escape from reality or physical pain and they (vic) simply have to accept an inherent risk of death, so they place blame back on the victim to justify in their heads.

I think it's more aligned with something like….. "War is War-Money is Money-The US stole our land"- "I'm getting paid for the drugs in the field 10 times what it cost me to produce", "I don't have to worry about moving weed crops and taking losses, because the Chinese are handling", "I get paid four times, at high discount CCP cleans my dirty money resulted from US sales proceeds, CCP, when US HHS/DEA publishes total deaths by Fentanyl gets paid per 100 deaths

(hypothetical). I suppose if I were a criminal, my dad was captured by the partially corrupted (USA) government, who'd let him run free in prior presidential administrations. I'd despise and have NO conscience either. I'd operate a criminal enterprise the same way, especially if I knew my socialist president (Claudia), which we control (Moreno), would NOT permit U.S special operations forces or even our own Mexican forces to touch or interrupt our DTO operations, leaving us unimpeded access to unleash chemical warfare on neighboring states.

One more point. A normal minded businessman (from anywhere) would totally welcome repeat/recurring customers who consistently pay top dollar for the product.

A legitimate businessman, formally legal or not, would NOT, ensure that their product formula 'kills' their customers dead on a regular basis.

In fact, as a decades or more long DoS designated drug trafficking organization (DTO) I know my organization could be elevated in status to a "Foreign Terrorist Organization (FTO) which I would never want in any circumstance. I would know if my product starts killing many, because I'm getting immediate attention on my operations, will expect LE infiltration, prosecution and will be completely shut down.

See what I'm saying here. Simply welcoming Chinese foreign nationals into their homeland that wish to wage clandestine irregular warfare on their neighbors (USA), that they must live next door to, without very, very high and large compensation and extremely high level assurances (like Mexican gov) that operations will flow without hindrance.

Fentanyl and carfentanil are synthesized using precursor chemicals that are almost always ordered and shipped directly from mainland China (minor shifts/India). Recent change in tradecarft indicates the precursors will many times transit a 3rd or fourth country to mask origination points. In my previous discussions about this issue, I highlighted that a 55-gallon drum of the primary ingredient costs the

cartels roughly $500. With an additional investment of approximately $1,500,low wage forced laborers who are expendable (death often), can manufacture counterfeit pills laced with this lethal substance. They can generate a return valued at a staggering $1 million.

To evade detection, minor alterations such as tweaking one or two chemical properties are made to the formulas often. These changes allow the compounds to retain their desired effects while bypassing import restrictions, detection mechanisms, and legal barriers. What's even more alarming is the existence of hundreds, if not more, derivative chemical variations and combinations that achieve the same intoxicating high but remain equally capable of causing frequent deaths.

This adaptability underscores how challenging it is to combat such operations. To effectively address the problem, we must comprehend not only their tactics but also their cultural and operational nuances.

Understanding the underlying systems that drive these groups, their motivations, strategies, and cultural contexts—can provide critical insights into their resilience and help identify opportunities for counteracting their methods. Cultural awareness is not just a matter of empathy; it is a strategic imperative when confronting an adversary of this complexity.

Joaquín "El Chapo" Guzmán is serving a life sentence without parole in a U.S supermax prison in Colorado. Two of his sons (Ovidio and Joaquín) are jailed in the U.S. and cooperating with prosecutors. Two other sons (Iván Archivaldo and Jesús Alfredo) remain fugitives in Mexico known as Los Chapitos, leading a faction in a violent cartel civil war. Los Chapitos, are the current (sociopath) pushing Fentanyl in the USA and Europe.

They knew DJT was going to lock down the border in his second Presidency and after sleepy Joe left it wide open for four years, so prior to him taking office, the word on the street was that. The Chapitos' stepped up operations. Several towns in and near Sinaloa were tasked by the boss (Narco Futures).

Each home occupant in the town of Sinaloa was tasked to produce an estimated output of ten thousand (10,000) fake pressed Oxycontin pills per day. I heard one particular nearby town produced over 10 million pills in a day, this production run went on for days, maybe weeks.

Once produced, the pills were shipped directly into the U.S, bypassing normal distribution means and stored/cached in some type of warehouse type facilities inside the U.S. Looking into the future when the regular drug market eventually dries up and the border is locked down.

They can then tap into their (cartel rainy day fund) investment, jack up the prices, continue killing people on behalf of the CCP, profit, profit, profit and don't have to worry about paying a CBP officer off at the border, or being interdicted at the border because that issue has been resolved by the expedited production and stores.

Looking at Mexico's environment a little closer and the value that any of the Cartels place on human life is just amazing. Besides killing upwards of Four-Hundred Thousand (400k)Americans with malice and intent and on behalf of Xiao Xi Ping, just short of half of one million people in their neighboring country.

You'd think the Mexican government would be a little more concerned with these cartels not being representative of the nation of Mexico, perhaps crack down on them since relations are strained! Nope, Socialist "Hugs not Guns" implemented by the previous corrupted, Morena Party backed Mexican President Obidor! While Claudia gets richer and US citizens die daily.

You know, another interesting thing related to California and Texas at one point in history being Mexican territory. For some reason members of the Mexican Government, such as the Mexican Senate (these types) actually live inside the United States, many in San Diego. Interesting that a country right next door requires 25 plus diplomatic offices in our country also.

"The Mexican government, President Claudia Shienbaum and the ruling Morena Party, Mexico faces pervasive corruption

challenges and unprecedented levels of political violence tied to cartel influence and local election disputes. That's the nice way of saying Shienbaum doesn't want U.S. troops, or Intelligence Services on Mexico land to combat the militarized Cartel networks controlling literally the whole nation, to include most government offices, portions of the military, police, and provincial mayors.

Corruption in the Mexican Government

In the Transparency International Corruption Perceptions Index, Mexico scores 26 out of 100, ranking 140th out of 180 countries and placing last among OECD nations. While the Morena Party was founded on a strong anti-corruption platform, critics and watchdogs argue that corruption remains severe, with impunity continuing to pose systemic issues throughout the government.

Political Violence and Assassinations Since 2012

Mexico has experienced a grim surge in political assassinations, predominantly targeting local and municipal politicians. Rather than politically motivated hits by rival national parties, this violence is largely driven by criminal cartels and gangs attempting to force cooperation from local authorities and secure influence in specific municipalities.'

According to security consultancies and local monitoring groups like *Data Cívica* and *Integralia*:

- 2024 Election Cycle: A record-breaking 63 political figures were murdered between June 2023 and the conclusion of the 2024 general elections, which included 37 registered candidates.
- 2021 Election Cycle: 36 candidates/pre-candidates were killed.
- 2018 Election Cycle: 24 political murders occurred.
- Midterm/Local Cycles: Hundreds of other violent incidents, including threats, kidnappings, and attacks, were recorded during each election.

Specific Candidates Assassinated (2024)

Because the overwhelming majority of assassinations occur at the local (mayoral, council, or municipal) level across Mexico's thousands of municipalities rather than in presidential races, the candidates won or lost their specific localized seats depending on local re-elections and subsequent special elections.

Notable victims targeted during the record-breaking 2024 election season included:

- **Jorge Huerta Cabrera:** Running for a council seat in Izúcar de Matamoros (Puebla).
- **Alfredo González Díaz:** Mayoral candidate for Atoyac de Álvarez (Guerrero).
- **José Alfredo Cabrera Barrientos:** Mayoral candidate in Coyuca de Benítez (Guerrero).
- **Wilman Monje Morales:** Former mayoral candidate for Gutiérrez Zamora (Veracruz).
- **Manuel Hernández Hernández:** Candidate for local Congress in Misantla (Veracruz).
- **Giovanni Lezama Barrera:** Candidate for federal deputy in Cuautla (Morelos).

DISAPPEARANCES+MASS GRAVES

Mexico is currently facing a dual crisis of violence with an estimated 130,000+ people missing or disappeared and annual homicides regularly exceeding 30,000. The vast majority of these cases are tied to organized crime and cartels. 1

The Missing Persons Crisis

- Total Disappeared: Official government data tracks more than 130,000 people missing, with a 200% surge in disappearances over the last decade. [1, 2, 3]
- Demographics: The crisis disproportionately affects men aged 20–34 and women aged 15–19.
- Regional Hotspots: Cases are heavily concentrated in the states of Estado de Mexico, Jalisco, and Tamaulipas, with Nuevo León having the highest per capita rate.

- Clandestine Graves: Activists and authorities have uncovered nearly 5,700 clandestine graves, and state morgues hold tens of thousands of unidentified human remains.

Homicide Statistics

- Current Rates: While daily homicide averages have seen notable declines in recent months, totals remain high, with roughly 31,000 to over 40,000 murders recorded annually. [1, 2, 3]
- National Statistics: From 2006 to recent evaluations, nearly 424,000 homicides have been documented across the country. [1]
- Victim Profile: Approximately 65% of homicide victims are between the ages of 20 and 45, and men account for the vast majority of victims. [1]

Tracking and Resources

- Official Registry: The Mexican government tracks the missing via the National Registry of Missing Persons. Human rights organizations like the International Commission on Missing Persons and the Mexico Violence Resource Project provide deeper, data-driven context.
- Human Rights Reports: For detailed analysis on state complicity and the impact of the crisis on citizens, review the Human Rights Watch World Report.

US Special Forces-7th Group sent one SOF-ODA (12 man +Support)to provide instruction to the Mexican Marines who are one of the more trusted, much less corrupted, special operators capable of taking on groups like CJNG, Sinaloa and most formidable Los Zetas whose doctrine and TTP's descend directly from early 1960's-2000 Special Forces training tactics,techniques, and procedures obtained in Mexico, presented by US SF trainers.

I also read in a declassified State Dept. Cable,up to several Mexican personnel received training, dropped the military and went full Zetas. Other units have attended various school houses at Fort Bragg in the last few decades including SF training.

Our guys have the capabilities of establishing a Task Force or greater Command Structures.

Past and current issues, like the Alamo, cross-border water pollution-sewage/waterways (San DIego),natural ethnic,generational and foundational cross-border support mechanism (family)on US interior,several cartels still have a physical presence in all fifty (50) U.S states, all major U.S cities, and most urban/suburban landscapes.

Their distribution networks run the gamut of the vast criminal underground networks (**primary operator 14K Triad**) consisting of Mexican street and prison gangs, Mexican Mafia (La Emme) (Arayan Brothers)and consist of many many different drug distributors such as motorcycle clubs, Hells Angels MC,Mongols MC, Outlaws, Bravados MC (20 others). Then

other international cliques like Mara Salvatrucha (MS-13), 18th Street,Venezuelan Tren De Argua (TdA) and the list could go on forever because they use as many ‘street cliques’ as possible to distribute their various products to many locales.

Each state has its own apparatus and reporting structure. Every single one of their operational personnel in the field is a potential threat vector, if given the word to act. There has already been a media black out ‘home-invasion family slaying’ with beheading, involving “cartels.

We know they have collaborated with Hezbollah and Hamas connections facilitating weaponry and access, discussion and training on operational tactics, drone warfare and tunnel warfare collaboration in the past. No reason to try and discredit current continued collaboration especially since they are uniquely similar now both being designated Foreign Terrorist Organizations (FTO).

Hezbollah has been operating in the ‘rear’ (Venezuela) for over a decade mostly in criminal circles generating cash, but still training for terror operations worldwide on Venezuela's Margherita Island.

Hezbollah is deeply embedded and vested within Venezuelan culture whereas “life is an operation.” They have acquired properties in several neighborhoods, set up legitimate businesses, some are solely front operations, others legit.

Some Lebanese terrorist diaspora actually obtain what little work is available in the area, given initial language barriers (Lebanese/Spanish) abilities (quickly learned),always capitalizing on the socialist “victimhood” agenda collecting government handouts, Creating and operating gimmicky money making schemes,call centers into motion, but really building and nurturing criminal networks to be leveraged whenever required or summoned upon by leadership to operationally “go active”.

They are especially always ready to illegally transport US stateside stolen vehicles overseas, to move weapons and ammo, assassins/operatives/agents other travelers,family or enablers, goods,operation focused logistical supply, commodities such as coal (dual use) as masking agent for moving contraband,(coffee same use)

and of course their cash cow is ‘cocaine’ (rock/powder/liquid) and other high demand hard drugs they produce some containing amphetamines frequently consumed by brother fighters around the globe to ‘sustain’ prolonged operations+ gunbattles, such as Oct 7th.

Many Hezbollah operatives have assumed Venezuelan identities and personas to mask and obfuscate their Lebanese lineage (government backstopped), providing sufficient identity cover for border crossing operations into neighboring countries like Quito,Ecuador as an intermediary country to depart from, and transit to the U.S, coupled with the Maduro regime supplied authentic Venezuelan government travel documents (passports). Also allows them to have cover if challenged performing Pre-target surveillance, etc.

The following opening statement on this subject is directly cited from American scholar, educator, Islamic Theologian Bill Warner and his copywritten text titled. “Sharia.Law for the Non-Muslim”-

He Writes in the year of 2010>>>>>>>>>>>>>>>>>>>

“Sharia in Europe today -
When you study Islam in Europe today, you are seeing America in 20 years. Why? The actions by Muslims in Europe are based on Sharia law, the same Sharia law that is beginning to be implemented in America today. • • • • • • • • •

There are times when traffic cannot move in London streets as Muslims commandeer the streets to pray—a political result based on Sharia law. Entire areas of Europe are no-go zones for non-Muslims, this includes the police. These are Islamic enclaves where only Muslims live. The Muslim-only policy is based on Sharia. In England an Anglican bishop calls for the rule of Islamic law for Muslims. The bishop is obeying Sharia law. In the schools only Islamic approved texts can be used; this is based on Sharia law. Christians may not speak to Muslims about Christianity nor may Christians hand out literature. This is a political result based on Shar ia law enforced by British courts.

Rape by Muslims is so prevalent in parts of Sweden that Sweden has forbidden the police from collecting any data in the rape investigation that would point to Islam. Rape is part of Islamic doctrine as applied to non-Muslim women. In London, mass demonstrations by Muslims call for the end of British law and Sharia law to rule all people, regardless of religion. This political action is based on Sharia. In some English hospitals during Ramadan fast (an Islamic religious event), non-Muslims cannot eat where a Muslim can see them. The submission of non-Muslims to Islamic preferences is based on Sharia law. At British hospitals, Muslim women are treated only as Sharia law demands. sharia law for the non-muslim sharia in America today Here are current and historical events in America that are driven by Sharia law: • • • • • • • • • • • • •

On September 11, 2001 jihadists attacked and destroyed the World Trade Center in New York. This atrocity was in compliance with the doctrine of jihad found in the Sharia law. The attack was a political action motivated by a religious mandate for endless jihad. Textbooks in America must be approved by Islamic councils. This is in accordance with Sharia law. American employers and schools are met with demands for time and space to do Islamic prayer. These demands are based on Sharia law. The American banking system is becoming Islamicized with Sharia financing.

Our banking system is becoming Sharia compliant in financial law, but is ignorant about the totality of Sharia law. Universities are asked to provide sexually segregated swimming pools and other athletic facilities for Muslim women. Hospitals are being sued for not providing Sharia compliant treatment. No course at the college level uses critical thinking regarding the history and doctrine of Islam.

Under Sharia nothing about Islam may be criticized. Muslim charities give money to jihadists (Islamic terrorists), as per Sharia law. Muslim foot-baths are being installed in airport facilities, paid for by American tax dollars. This is in accordance with Sharia law. American prisons are a stronghold of Islamic proselytizing.

Workplaces are being made Islamic worship sites through special rooms and time off to pray. This is in accordance with Sharia law. Islamic refugees bring all of their wives for welfare and medical treatment to America. American authorities will not act—even when presented with evidence. Polygamy is pure Sharia.

We are fighting wars in Iraq and Afghanistan to implement constitutions whose first article is the supremacy of Sharia law.

Why do we need to know sharia? islamic scholars claim: Islamic law is perfect, universal and eternal. The laws of the United States are temporary, limited and will pass away. It is the duty of every Muslim to obey the laws of Allah, the Sharia. US 2 introduction laws are man-made; while Sharia law is sacred and comes from the only legitimate god, Allah. sharia: Sharia is based on the principles found in the Koran and other Islamic religious/political texts. There are no common principles between American law and Sharia. Under Sharia law: • • • • • • • • • • • • • • • •

There is no freedom of religion There is no freedom of speech There is no freedom of thought There is no freedom of artistic expression There is no freedom of the press There is no equality of peoples—a non-Muslim, a Kafi r, is never equal to a Muslim There is no equal protection under Sharia for different classes of people. Justice is dualistic, with one set of laws for Muslim males and different laws for women and non-Muslims. There are no equal rights for women Women can be beaten A non-Muslim cannot bear arms There is no democracy, since democracy means that a non-Muslim is equal to a Muslim Our Constitution is a man-made document of ignorance, jahiliyah, that must submit to Sharia Non-Muslims are dhimmis, third-class citizens All governments must be ruled by Sharia law Unlike common law, Sharia is not interpretive, nor can it be changed There is no Golden Rule “ END

This Document will be published after **June 28th** in the year of our Lord Jesus Christ-**2026**.

IN SUMMARY-TENS OF THOUSANDS OF NATIVE BRITISH WHITE GIRLS HAVE BEEN SYSTEMATICALLY YEAR AFTER YEAR,BRUTALLY RAPED, TRAFFICKED, SOLD , ABUSED, TORTURED, RE RAPED HUNDREDS OF TIMES WHILE 'TURNED OUT' ALMOST EXCLUSIVELY BY IMMIGRANT RAPE GANGS PRIMARILY OF PAKISTANI DESCENT AND ISLAMIC SHARIA LAW ADHERENT MUSLIMS. APPARENTLY THIS IS A SEVERE CULTURAL FLAW WITH MANY OF THESE BARBARIC MEN MOVING TO A FOREIGN COUNTRY AND RAPING ITS NATIVE CHILDREN WITH HOPES OF IMPREGNATED THEM TO SPREAD ISLAM. ESSENTIALLY FOLLOWING THE PATH OF THEIR PROPHET MUHAMAAD HAVING SEX WITH MINOR CHILDREN, A DIRECT CONFLICT WITH THE U.S AND INTERNATIONAL CRIMINAL LAW & PROCEDURE. AFTER THOUSANDS OF POLICE REPORTS THE GOVERNMENT IGNORED THE DIRE ISSUE FOR FEAR OF BEING LABELED RACIST. THIS CAN NOT BE PERMITTED IN THE USA.

Conclusion: ISIS's dominance in urban combat did not emerge solely from numerical strength or advanced technology but rather from its mastery of unconventional battlefield tactics. The group's reliance on savvy use of explosives, precise sniper attacks, fortified urban landscapes, and diversionary maneuvers allowed it to exploit vulnerabilities even against superior adversaries. Understanding these methods not only sheds light on their past successes but also highlights the

Hezbollah **Unit 910** and the IRGC-QF **Unit 840** represent the "tip of the spear" for Iranian-backed external operations. While Unit 910 is a native Hezbollah branch, Unit 840 is a specialized IRGC Quds Force unit that often coordinates with Hezbollah to leverage their global networks.

Together, they possess the tradecraft required to execute a **Complex Coordinated Terrorist Attack (CCTA)**—defined by multiple teams attacking multiple targets simultaneously or in close succession to overwhelm local response.

Unit 910: The "Shadow Unit" (Hezbollah)

Unit 910, also known as the **Islamic Jihad Organization (IJO)** or **External Security Organization (ESO)**, is Hezbollah's elite clandestine wing for overseas operations.

- **Commander:** Currently led by **Talal Hamiyah**. Historically founded and shaped by Imad Mughniyeh.
- **Mission Profile:** Strategic "Black Ops." Their goal is to maintain a dormant global infrastructure that can be activated for high-impact retaliatory strikes or strategic assassinations.
- **Recruitment Strategy:** They focus on "clean" operatives—Lebanese Shiites with dual citizenship or Western passports (e.g., U.S., Canadian, or EU). These individuals are often recruited from the diaspora to live "normal" lives in the target country for years.
- **Training:** Operatives undergo a rigorous **6-year cycle** covering ideological indoctrination, advanced intelligence tradecraft (dead drops, encrypted comms), and specialized military training in explosives (HMTD, TATP) and small arms.

Unit 840: The "Hand of the Quds Force" (IRGC-QF)

Unit 840 is a relatively secretive operational unit within the **Islamic Revolutionary Guard Corps - Quds Force (IRGC-QF)**. It serves as the IRGC's "contractor" for external violence.

- **Commander:** Led by **Yazdan Mir** (alias Sardar Bagheri).
- **Mission Profile:** Establishing terror infrastructure and conducting assassinations/kidnappings against Western and Israeli targets. Unlike Unit 910, which relies on loyalists, Unit 840 frequently **outsources** to local criminal organizations (e.g., the Polish mafia, Mexican cartels, or Pakistani gangs) to maintain plausible deniability.
- **U.S. Context:** Unit 840 is the primary node for managing "proxies of convenience using non-aligned individuals or local criminals to conduct pre-operational surveillance or low-level logistics.

CCTA Capabilities Assessment: USA

For a CCTA to occur within the U.S., these units would utilize a "Jigsaw" approach to bypass federal monitoring.

1. Pre-Operational Surveillance (The "Saab/Kurani" Model)

Evidence from the cases of **Ali Kurani** and **Alexei Saab** (convicted Unit 910 operatives in the U.S.) shows that Hezbollah maintains a deep "Target Folder" on American soil.

- **Capabilities:** They have conducted high-fidelity surveillance on JFK Airport, the U.S. Capitol, the White House, and New York City law enforcement facilities.
- **Tradecraft:** They use "tourist" or "amateur" photography as cover, recording structural vulnerabilities, security response times, and "Response Corridors" (ingress/egress routes).

2. Logistical Caching & Logistics

A CCTA requires immediate access to materials that cannot be easily moved across borders.

- **The "Shadow Economy":** Utilizing front companies (charities, export-import businesses) to purchase and store precursor chemicals (Ammonium Nitrate).
- **Explosive Caches:** Unit 910 is known for "Pre-Positioning" explosives. In Europe and Asia, they have been caught with tons of Ammonium Nitrate stored in "safe houses" years before an intended strike.

3. Tactical Execution: "The Swarm"

Hezbollah's tactical doctrine, governed by their **13 Principles of War**, favors "The Swarm"—overwhelming a target through multiple, disparate angles.

- **Small Cell Autonomy:** Cells of 2–4 people operate independently, only converging at the "X" (target location). This prevents the entire operation from being compromised if one cell is caught.
- **Combined Arms:** Ability to integrate IEDs (Improvised Explosive Devices) with active shooter tactics to trap first responders in "Kill Zones" (Secondary Baiting).

Capability	Unit 910 Strength	Unit 840 Strength	CCTA Application
Identity Management	High (Western Passports)	Low (Uses Criminals)	Movement of "Commanders" vs "Operatives."
Surveillance	Technical/Structural	Human/Intelligence	Detailed blueprints + pattern of life data.
Logistics	Long-term Caches	Quick-turn Proxies	Stable explosives + last-minute weapons.

Summary of Threat Indicators

The "Golden Rule" of Unit 910—**"The less you know, the better"**—makes detection difficult. For a CCTA in the U.S., the primary indicator is not a sudden influx of fighters, but the **"activation"** of existing sleepers who have spent years as naturalized citizens, working common jobs while maintaining "Digital Dead Drops" with handlers in Beirut or Tehran.

Extending analysis to irregular forces such as Hezbollah and Iranian Quds Force, Venezuelan special forces, and Mexican narcotics cartels, each with distinct training, tactics, and weapon preferences. Hezbollah's evolution into a disciplined force with integrated anti-tank and infantry tactics exemplifies how irregular forces can achieve conventional warfighting capabilities. Mexican cartels' use of paramilitary tactics and heavy machine guns underscores the growing militarization of criminal organizations, which complicates domestic security.

AL QAEDA/AL QAIDA TERRORIST TACTICAL EVOLUTION

Al Qaeda's newest **Emir** is **Hamza Mohammad Awad Bin** who is the groomed son of **Osama bin Laden** and current ***heir*** to the ***Al Qaeda/Al Qaida franchise*** terrorist outfit. Hamza is not alone in his ventures to fulfill his father's legacy and aspirations and is adequately staffed and backed by his two Deputies which are also his brothers. **Saad bin Laden** as *First Deputy* and **Abdullah bin Laden** as *Second Deputy*. Family friend, advisor, confidant and war chief, **Saif Al Adel** remains close by in Afghanistan. Hamza also has the likes of the powerful **Sarjuddin Haqqani** as his **Father-In Law** at his disposal, because he's married to his daughter. Hamza is now also the '**son in law**' of well respected, deceased **Mullah Omar, founder** of the **Taliban**, by marrying his daughter. Which also makes **Mullah Jacoob Mujahid** the **Taliban** *Defense Minister,* his **brother-in-law**. As can be seen this dynamic makes them all family something held of high

importance within any family, but especially where Afghanistan tribal law holds reign.

At one time **Adel** hid out like Hamza in Iran where he performed AQ external operational planning under Iranian IRGC hospitality. Iran provided both him and ***Hamza*** with safe haven from U.S drone strikes, hiding Hamza after his suspected but unconfirmed death, concealing them from stalking by Delta and providing “WitSec” style shelter and protections. All this while Adel remained fully operational, remotely planning Yemeni and other AQ operations.

Al-Qaeda isn’t just some wild, unpredictable terror group driven only by ideology. The truth is, they’ve developed surprisingly advanced intelligence methods, many of which look a lot like the playbook used by big nation-states. Intelligence officials in powerful countries worry about this because Al-Qaeda doesn’t just pick things up on the fly; they closely follow manuals that cover everything: digging up information from public sources, watching surveillance targets, interrogating prisoners, and even recruiting spies inside foreign governments. The old stereotype of Al-Qaeda as nothing but a group of fanatics just doesn’t hold up.

At the core, they’re smart about gathering intelligence, and they know how to protect what they learn. Keeping their tradecraft and operational fieldcraft refined.

What most people don’t realize is how Al-Qaeda picked up many of these methods. Major powers like the US, Russia, Iran, and Britain have spent decades building and sharing intelligence techniques with each other, with their allies, and sometimes with groups they never meant to help.

Even when these nations didn’t mean to, some of their best tricks ended up in less desirable hands. Al-Qaeda grabbed whatever worked, tweaked it, and made it fit their own needs, helping them survive in a world that’s always out to get them.

One pattern stands out: as the big powers handed their methods to local allies and proxy groups, those tactics eventually seeped into organizations like Al-Qaeda. It’s a web of influence that most people overlook.

Take a closer look at how Al-Qaeda learned from Iran and Hezbollah. Iranian intelligence honestly used to be a joke poorly trained, not respected until around 1957, when America helped stand up the SAVAK, Iran’s state security agency. The CIA didn’t want to see the Soviets move in, so they trained thousands of SAVAK agents in spycraft and counterintelligence, directly exposing Iran to American methods. Britain ran its own operation in parallel; MI6 kept a human intelligence network inside SAVAK, passing along their own secrets.

Even after the 1979 Iranian Revolution that shut down SAVAK, the operational “know-how” stuck around. Old SAVAK officers trained by the West stayed inside the system. Iran’s new agencies, caught up in revolutionary turmoil, kept using those same skills.

Then, in the early ‘80s, Iran started backing Hezbollah in Lebanon after facilitating the stand up. They didn’t just send money and weapons, they set up intelligence training camps that taught Hezbollah how to run operations against Israel. That’s where Al-Qaeda took real notice. Hoping to up their game, they struck a deal with Hezbollah: In exchange for cash and fighters, Al-Qaeda operatives trained in those camps during the mid-1990s. They learned bombmaking, ways to avoid detection, and maybe most valuable how to conduct espionage and spy like a pro.

There’s even more. In the early ‘90s, when Bin Laden was hiding out in Sudan, Iran offered Al-Qaeda direct help: explosives, intel, security training mostly funneled through proxies, but the connection was there. After 9/11, Iran tried to keep its distance, at least on the surface, but it remained a crossroads for Al-Qaeda leaders moving in and out of Afghanistan. And in 1995, Russian intelligence stepped in to update Iran on the latest techniques. So now, you had Iran with fresh Russian tactics passing them to both Hezbollah and Al-Qaeda.

Leaked documents give us more details. According to some files released by Wikileaks, Iran designed new suicide vests for Al-Qaeda fighters in Iraq. These vests were advanced mini-cameras built in so handlers could watch in real time. Clearly, the hand of a state was shaping these tactics.

Bottom line : all those TTPs (tactics, techniques, procedures) that the US and UK put in Iran's hands have traveled, piece by piece, right through Hezbollah and straight to Al-Qaeda.

Now look at Pakistan. After British rule ended, the new nation set up the Inter-Services Intelligence Directorate, or ISI, in 1948. Many Brits stayed behind to help, so the earliest ISI learned the British way of doing things, methods and routines that shaped its culture from the start.

ISI grew into a major player during the 1980s Soviet-Afghan war, when the CIA poured in money and guidance to help the Afghan Mujahideen. This became Operation Cyclone, the CIA's costliest covert action ever. To keep US fingerprints off, the CIA worked through ISI, which meant tons of cash and direct CIA training for Pakistani intelligence officers—plus close ties between ISI and the Mujahideen.

Thanks to this setup, Mujahideen fighters got professional lessons in intelligence: running surveillance, sneaking behind enemy lines, protecting their communications, and more. Somewhere in this mix, ISI connected with a rising figure Osama bin Laden. Decades later, you can still see the fingerprints of that era in how Al-Qaeda trains and operates.

Behind the headlines, it's this kind of transfer planned or not that's kept Al-Qaeda far more sophisticated than most people expect.

AQC is the current master-mind of multiple active plots around the world. It has been masking and concealing its ongoing nefarious relationships with the likes of the Islamic State in Khoorasan Province (ISIS/ISKP), other jihadi organizations including the Afghan and Pakistani Taliban for which they are embedded with, and which

provides shelter and operational cover for them. Several intertribal marriages have dictated this relationship.

ISLAMIC STATE/ISIS/ISKP
TACTICAL HISTORY & EVOLUTION

The Four Core Strategies Behind ISIS's Urban Territorial Gains The territorial expansion and military success of ISIS in urban areas can be attributed to four pivotal tactics: the extensive use of explosives, the deployment of skilled sniper units, the strategic fortification of key terrains, and the implementation of diversionary tactics to mislead and divide enemy forces.

A closer analysis of these strategies reveals their critical roles in the group’s broader operational blueprint.

1. **Widespread Use of Explosives: IEDs, VBIEDs, Booby Traps, and Landmines** A cornerstone of ISIS's strategy has been its mastery in utilizing explosive devices. This includes improvised explosive devices (IEDs), vehicle-borne IEDs (VBIEDs), suicide vehicle-borne IEDs (SVBIEDs), landmines, and booby traps. Such devices have been employed not only to launch offensive attacks on urban strongholds but also to create defensive fortifications in occupied territories.

Their flexibility, cost-efficiency, and devastating impact have made them indispensable to ISIS's urban combat tactics. Drawing from techniques pioneered by al-Qaeda in Iraq, ISIS integrated the use of IEDs into their operations, emphasizing their value as a tactical tool capable of neutralizing better armed adversaries.

Analysts such as Jonah Leff from Conflict Armament Research have noted that ISIS manufactured IEDs on what he describes as an "unprecedented industrial scale," far surpassing other conflict zones in their deployment of such weapons. Similarly, U.S. Army General John Johnson, representing the

Pentagon's Joint IED Defeat Organization, has emphasized that IEDs serve as one of ISIS’s most lethal and frequently employed assets. **Defensive Applications**

In defensive scenarios, explosives are primarily used to obstruct advancing enemy forces. For example, during the 2015 battle for Tikrit in Iraq, Iraqi forces and Shia militias encountered a city riddled with IEDs deliberately positioned to maximize casualties and slow their progress. In yet another instance, as ISIS retreated from Erbil in Iraq’s Kurdistan region in 2014, they left behind IEDs buried along highways to create deadly traps for the pursuing coalition forces. Similar tactics were used extensively in Iraq and Syria, where booby-trapped cities and major transportation routes severely hampered anti-ISIS forces’ advances.

Offensive Applications
In offensive operations, ISIS often leaned heavily on explosives as an opening salvo for territorial conquest. By causing chaos, destruction, and confusion through coordinated detonation campaigns, ISIS was able to create vulnerabilities in enemy defenses. This approach proved instrumental in pivotal battles like those fought over Kobane in Syria.

2. **VBIEDs and SVBIEDs: Force Multiplier as Shock Weapons** Since 2012 in Iraq and later in Syria from 2013 onward, ISIS greatly ramped up its use of vehicle-borne improvised explosive devices (VBIEDs) and suicide VBIEDs (SVBIEDs) for both offensive and defensive purposes. According to a report by the Institute for the Study of War (ISW), these explosive-laden vehicles became a key element in their military strategies, with an overall increase in their utilization culminating in major upticks during 2014-2015. Particularly critical to urban warfare, VBIEDs were deployed effectively in areas where sleeper cells or grassroots support structures were absent. In these regions, such as during the assault on Ramadi in early 2015, VBIED attacks served as a primary means of overwhelming local defenses and breaking organized resistance.

3. **Snipers: Precision-Driven Urban Guerrilla Warfare** ISIS demonstrated sophistication in training and deploying sniper units as a force multiplier within the confines of densely populated urban environments. High vantage

points from damaged or abandoned buildings provided ideal perches for trained marksmen to disrupt and impede enemy advances. These sniper units played a dual role: physically incapacitating enemy combatants while also instilling fear among troops through the looming threat of accurate long-range attacks. The psychological toll this exacted forced opposing forces to recalibrate their tactics, slowing their operations significantly.

4. **Diversions Through Strategic Misdirection** Another key tactic in ISIS's operational repertoire was their ability to effectively distract opposing forces through sudden offensives or misdirection campaigns. By launching surprise attacks on less strategically important regions or areas far removed from their strongholds, ISIS forced its adversaries into dividing their forces across multiple fronts.

This dispersion of enemy troops reduced pressure on critical ISIS-held territories and enabled the group to prolong their control over key regions.

Highlights

- 🔥 Coordinated multi-city terror attacks planned by Osama Bin Laden’s sons using US and foreign military-grade weapons.
- 💣 Use of novel, undetectable peroxide-based suicide vests (“Invisible Bombs”) designed to bypass airport security.
- 🏥 Targeted hospital assaults with hostage-taking to cripple emergency medical response and maximize casualties.
- 🎯 Soft targets include schools, houses of worship, and large public events to inflict psychological terror.
- 🔫 Detailed small arms tactics of jihadist groups reveal use of both precision and shock tactics in urban operations.
- ⚔️ Comparison of jihadist tactics with state-sponsored irregular forces and paramilitaries underscores evolving insurgent warfare.
- 📋 Comprehensive emergency operations planning guidance included for community preparedness and response.

Key Insights

- 💥 **Complex Coordinated Terror Attack (CCTA) Strategy:** The planned simultaneous strikes on at least fifteen cities across the US represent an evolution in terrorist operational complexity. By dispersing attacks geographically but synchronizing timing, terrorists aim to overwhelm local law enforcement and emergency response systems, creating confusion and maximizing casualties. This multi-pronged approach draws on lessons from past terror plots but ups the scale and sophistication.

- 🧪 **Innovative Explosive Technology - "Invisible Bombs":** The use of peroxide-based chemical explosives such as Ethylene Glycol Dinitrate (EGDN) or Nitroglycerin in suicide vests represents a significant advancement in terror tactics. These compounds are odorless and evade conventional explosive detection, posing a critical challenge to aviation security. The embedded remote camera and “dead-man” triggers add layers of security for the attacker, complicating counterterrorism EOD procedures.

- 🎯 **Soft-Target Focus Amplifies Psychological Impact:** The deliberate targeting of schools, hospitals, and houses of worship is designed to strike at the core of American society’s sense of safety and normalcy. Attacking children and sacred institutions aims to create profound fear, trauma, and societal destabilization, going beyond physical damage to inflict deep psychological wounds. The terrorists’ goal to surpass 9/11’s death toll underscores their intent to make a catastrophic statement.

- 🚓 **Tactical Sabotage of Emergency Response Vehicles:** The plan to affix “sticky bombs” to law enforcement vehicles before attacks is a novel tactic intended to delay or disable first responders. This preemptive sabotage shows a sophisticated understanding of emergency response patterns and seeks to compound chaos and casualties by preventing effective counteraction. The recommendation for rigorous vehicle inspections highlights a critical vulnerability in current police operations.

- 🔫 **Distinct Small Arms Tactical Doctrines:** The contrast between Al-Qaeda’s precision-focused, escape-oriented tactics and ISIS’s shock-and-mass-casualty approach reflects differing strategic objectives and operational cultures. Al-Qaeda’s “vanguard” style prioritizes high-value symbolic targets and survivability, while ISIS emphasizes overwhelming firepower and martyrdom. Understanding these differences aids in anticipating attack patterns and tailoring countermeasures.

- 🌐 **Hybridization of Terror Tactics and Weaponry:** The blending of tactics from various jihadist groups with state-supported irregulars (Hezbollah, Quds Force) and narco-paramilitaries (Mexican cartels) demonstrates a global cross-pollination of insurgent methods. This fusion leads to more effective and lethal operations, combining guerrilla warfare, urban suppression, and advanced small arms use. The availability of US military hardware via black markets further escalates the threat level.

- 📝 **Comprehensive Emergency Preparedness Framework:** The inclusion of detailed planning checklists for community emergency operations demonstrates the necessity of

structured, collaborative preparedness. Defining roles, assessing threats, and continuous training are vital to mitigating the impact of such complex terror attacks. Integrating threat-specific annexes, including active shooter and CCTA scenarios, supports adaptive, robust response capabilities.

SOLO
REACTING TO CONTACT
FROM ACTIVE SHOOTER

The same formula we use to defend against explosive nuclear devices applies also to Active Shooter/Attacker of any type.

TDS in this case is not "Trump Derangement Syndrome" although there is an abundance out there and the shooter may espouse these thoughts. We are discussing
Time + Distance + Shielding= Response.

Time **-**You need to instantly move off the X and away from gunfire or immediately return fire engaging the terrorist if armed, while also moving off X- Either way, don't stand still and freeze-up or use phone-MOVE. The more time he has to shoot the more death occurs, including you. Quick neutralization is the best option, while at same time attempting to secure proper cover-

Distance- The more distance you place between the shooter and you the less effective of shot he is, coupled with sporadic zig zag evasive movement in the opposite direction of fire increases your chance of survival.and decreases his chance of an accurate deadly hit. Ensure not to get shot in the back!

Shielding- Would be equivalent to effective Cover or Temporary Concealment. Recall <u>cover</u> *is actual hard cover barrier protection from gunfire (stops rounds) (concrete pillar or wall/OakTree)* while concealment *is simply hiding out underneath or behind something inadequate from stopping a bullet and only to avoid being seen*, concealment doesn't effectively stop rounds from penetrating the barrier and you.

Concealment should only be temporary until proper cover is found. All of this will occur within 15 seconds..

As I just mentioned, you NEED to put together a plan of action on how you will react to a shooting or a hostile incident.

Some will draw their weapon, if they have one and return fire. Nothing wrong with that as that's why you carry it.

but you need to take a few other things into consideration if someone is shooting at you!
This is an adaptation of the British Army individual reaction to fire drill. Some of this may apply to you and
some might not- use this as a basic format. If you are serious about your security, you must put together
a plan that is specifically designed for your personal situation and then practice it until it is second nature.
• Preparation: If you have a gun it must be clean, serviceable and well-oiled. Ammunition must be
of good quality, clean and your magazines full. You must be properly trained and ready to deal with the incident.
• Reacting to fire: The immediate reaction at close quarters is to identify the threat, move to cover
as you are deploying your weapon if you have one, and returning fire. If you are being shot at from a distance or do not know where the shots are coming from, you should:
• Dash- a moving target is harder to hit than a stationary target.
• Down- keep low and present a smaller target.
• Cover- Get into cover from fire.
• Locate- Observe where the threat is.
• Return fire- if you have a firearm.
• Winning the fire-fight: If you have a firearm: As soon as the threat has been firmly located, you must bring down sufficient accurate fire on the terrorist to incapacitate them or force them into cover so you can extract yourself from the situation.
• Re-organizing: As soon as you have incapacitated the terrorist or are in a safe area, you must reorganize yourself as quickly as possible in order to be ready for other possible threats.

Ensure to re-load your firearm if you have one, make sure that you or anyone with you is not injured and inform law enforcement and emergency services immediately.
Moving targets are harder to shoot than stationary targets.
It's a fact, it's harder to shoot a target that is moving than one that is stationary. So, if someone is shooting at you, do not stand still, run.

Smaller targets are harder to shoot than large targets! If there is no cover for you, make yourself a smaller target and

drop to a kneeling position. I do not recommend prone position, as it takes too much time for most people
to stand up. From a kneeling position, you can quickly run and get to cover.

Understanding the Threat:
Suicide Bomber Tactics and Delivery Mechanisms

IED/Suicide Bomber Characteristics:

- Use of peroxide and chemical reaction-based explosives (e.g., Ethylene Glycol Dinitrate, Nitroglycerin).
- Devices are body-worn (suicide vests) or vehicle-borne.
- Presence of "dead-man" switches and booby traps to ensure detonation if the attacker is neutralized.
- Integration of real-time remote camera systems on vests for monitoring and detonation.
- Use of concealed or chemically "invisible" explosives that evade traditional detection methods.
- Operations often supported by multiple small arms teams executing suppression and diversion tactics.

Detection Principles for IEDs and Suicide Bombers

To counter the evolving capabilities of suicide bombers, the following detection principles are essential:

- **Multilayered Screening:** Implement combined physical, chemical, and behavioral detection systems at critical checkpoints including airports, public venues, and infrastructures.

- **Advanced Explosive Detection Technologies:** Employ high-sensitivity devices capable of detecting peroxide-based and chemically reactive explosives, beyond standard trace detectors.

  $$\text{Detection Efficiency} \propto \text{Technology Capability} \times \text{Operator Proficiency}$$Detection Efficiency∝Technology Capability×Operator Proficiency
- **Behavioral Analysis and Profiling:** Constant monitoring for suspicious behaviors such as nervousness, avoidance of scrutiny, or unusual movements near restricted areas.

- **K-9 Teams Specialized for Chemical Detection:** Despite chemical invisibility of some compounds, trained dogs may still detect subtle cues associated with explosives or contraband.

- **Real-time Intelligence Integration:** Use HUMINT, SIGINT, and surveillance feeds to correlate suspicious activities with known threat indicators.

Indicators of Suicide Bomber or IED Attacks

Attack Type	Indicators	Mitigation Steps
Suicide Vest / SVIED Attacker	- Bulkiness or unnatural body contours under clothing - Frequent touching or hiding of vest - Use of backpacks or bulky garments - Unusual behavior such as reluctance to be screened	- Immediate tactical isolation - Remote screening using millimeter wave scanners - Deployment of bomb disposal experts (EOD) - Evacuation of non-essential personnel - Use of robotic neutralization devices
Chemical-Based Body-Worn IED	- Chemical odorless but visual inspection detects unusual substances or containers - Presence near sensitive areas - Avoidance of security checkpoints - Suspicious materials detected by new generation detectors	- Employ advanced chemical sensors - Conduct secondary inspection with protective gear - Continuous surveillance with CCTV and behavioral profiling - Early warning through informant networks
SVBIED Vehicle Attacker	- Suspicious vehicle parked in unauthorized areas - Modified vehicles with extra load or wiring - Attempts to breach perimeter zones - Recon or surveillance of target sites by vehicle occupants	- Vehicle screening with undercarriage mirrors and radiation detectors - Establish vehicle exclusion zones - Use of barriers to prevent vehicular access to critical infrastructure - Armored and trained roadblocks
Complex Coordinated Terror Team	- Coordinated movements of armed individuals - Presence of assault weapons (AK-47, M16 variants) - Use of secondary IEDs to bait first responders - Communication via encrypted devices or unusual -electronic signals	- Early intelligence sharing across agencies - Tactical deployment of rapid response teams - Implementation of strategic checkpoints and cordons - Real-time Gunshot Detection Systems (GSDS) - Enhanced counter-sniper and overwatch deployments

Protocol for

Detecting and Neutralizing Suicide Bomber Threats

STEP 1: INTELLIGENCE GATHERING AND THREAT ASSESSMENT

- Maintain continuous HUMINT and SIGINT operations focused on identifying planned attacks.
- Regularly update terrorist modus operandi and new technologies for IED concealment.
- Document and disseminate actionable intelligence to field operatives or officers.

STEP 2: ACCESS CONTROL AND SCREENING

- Enforce strict security screening at entry points using multilayered technology: millimeter wave scanners, advanced chemical trace detectors, and behavioral observation teams.
- Require identity verification and random secondary screenings.
- Special focus on soft targets (schools, hospitals, houses of worship).

STEP 3: CONTINUOUS SURVEILLANCE AND ATTENTION TO BEHAVIORAL INDICATORS

- Deploy CCTV systems with AI-based pattern recognition. Haptics
- Assign trained behavioral analysts to monitor crowds and identify nervous or suspicious individuals.
- Utilize informant networks and community liaisons to extend reach.

STEP 4: RAPID RESPONSE AND EVACUATION PROTOCOLS

- Implement immediate lockdown procedures in event of suspect detection.
- Deploy Explosives Ordnance Disposal (EOD) and HAZMAT teams to safely render devices inert.
- Establish evacuation routes minimizing exposure to blast radius or secondary attacks.
- Deploy Quick Reaction Forces (QRF) trained in close quarters combat and suicide bomber neutralization.

STEP 5: NEUTRALIZATION TACTICS

- Use **non-lethal** incapacitation (e.g., stun grenades, smoke) at standoff distance and whenever possible, which is what most public safety protocol is because society has hope there is time to call a SWAT, a negotiator, EOD, HAZMAT etc. This scenario is highly unlikely because all of these terrorist are on **a suicide mission.** Their doctrine tells them that, **"there is no greater honor then but to die for Allah**". Knowing that this programmed mind-set is highly likely at play, let there be no mistake; They WILL activate their outfitted bomb vest (SVIED) if cornered by police or Citizen**. Their first instinct and likely protocol is detonate at all cost, and by any means necessary. and at a time and place where the MOST lives can be taken & cause the most physical damage in that particular instance or circumstance.**
- They are here to kill Americans in general but specifically , "kill Jews and Christians wherever they can find them."Also, to establish an Islamic Caliphate or a land ruled by Allah, where all submit to him and total Sharia adherence.
- Any visible or audible signs of a known terrorist that starts praying to "Allah" either outloud or mumbling prayer under their breath, visible signs of fear, profuse sweating, pacing back and forth, near or headed towards a crowd or group of people.
- Avoid direct physical confrontation as many of the attackers will be overtly/covertly outfitted and carrying one or more "dead-man" switches for most expedient

detonation of body worn improvised explosive (SVIED) vest or activation of a remote device; instead, isolate the subject and contain.

- Use standard suspicious package protocol, do not key up on radio comms as this could cause premature detonation of the device (s).
- When armed engagement is necessary, focus on disabling the attacker's ability to detonate remotely (e.g., sever wireless communication devices).
- Use robotic disarming devices for bomb defusal.

Mitigation Strategies for Specific Attack Types

A. Mass Airborne IED/ SVIED Attacks

- **Mitigation:** Increased TSA layers with chemical trace advanced detectors; surveillance of suspicious passenger behavior across multiple airports; international information sharing regarding chemical compound signatures; continual training on latest detection devices.
- **Emergency Response:** Flight crew and ground personnel training on decompression protocol and immediate evacuation; establishment of rapid aerial and ground coordination for potential downed aircraft.

B. Urban Terror Team Attacks

- **Mitigation:** Community engagement programs to increase local intelligence; deployment of undercover operatives; comprehensive vehicle and person screening protocols near potential soft targets.
- **Operational Preparation:** Intensive training for first responders in handling "Secondary IED" tactics; coordinated multi-agency communication channels to avoid ambushes.

C. Hospital and Emergency Services Attacks

- **Mitigation:** Pre-attack lockdown of emergency vehicle fleets; vehicle inspections for "sticky bombs"; enhanced security at hospital entry points; use of CCTV and vehicle yard security.
- **Operational Actions:** Cross-training of EMS and Law Enforcement for armed ambush scenarios; immediate lockdown of hospital zones; evacuation protocols for patients and staff.

D. Soft Target Mass Shooting & IED Attacks

- **Mitigation:** Vigilance at educational institutions and places of worship; employing undercover security personnel; integration of metal detectors and bomb-sniffing K-9 units; public awareness and reporting programs.
- **Response:** Active shooter and bomb threat drills; application of cordon and search techniques; pre-planned secure holding areas.

IED/Suicide Bomber Detection Principles Summary

Probability of Detection $(Pd) = f$ (Screening Technology,Operator Skill,Behavioral Analysis,Intelligence Quality)

Where:

- **Screening Technology** includes the integration of advanced chemical sensors beyond traditional explosive residue detectors.
- **Operator Skill** encompasses training to recognize subtle physical and behavioral cues.
- **Behavioral Analysis** applies predictive profiling and anomaly detection algorithms.
- **Intelligence Quality** relies on early HUMINT/SIGINT inputs to preempt attack operations.

Conclusion

The dynamic threat of Al-Qaeda style suicide bombers demands a comprehensive security policy combining intelligence fusion, state-of-the-art detection technologies, behavioral awareness, rapid response readiness, and inter-agency coordination. By implementing this protocol, the Security Protection Force will be better equipped to detect, deter, and neutralize suicide bomber threats efficiently, minimizing casualties while maintaining public confidence in security operations. Ongoing training, investment in advanced detection equipment, and rigorous adherence to established protocols form the cornerstone of successful counterterrorism operations against this multifaceted threat.

A NEW WAY OF THINKING FOR THE INFIDELS OF THE WEST
This is something that every infidel in the west must know and understand about Islam.

Everyday that pass and all the infidels in the world are still breathing and free, it’s a big sin and failure for the Islamic Ummah.

It's like the worst serial killer is walking freely and the law enforcement didn't capture him and bring him into justice yet.

This is the mission that Allah gave to Muslims, to kill, punish, enslave, humiliate, subjugate, all the infidels in the world.

Every Muslim is a Jihadi, a soldier for Allah, his purpose in this life must be purely to sacrifice everything for this holy war against the infidels, and the highest achievement and reward for him is to sacrifice his own life killing infidels to accumulate more territories and domination for Islam.

Every Muslim knows that, they considering every infidel that free and happy as big disrespect to Allah, a criminal that must be punished and humiliated before execution, they're wishing and praying everyday to Allah to give them the power back so they be able to execute this mission like they did for 1,300 years.

AQC REGIONAL BRANCH/ AFFILIATE LIST

Al Qaeda is a decentralized network of autonomous regional branches and allied groups that have historically sworn *bay'at* (a religiously binding oath of allegiance) to the group's global leadership. [1, 2, 3]

The primary, publicly recognized affiliates that actively swear allegiance include:

Major Regional Affiliates

1. Al Qaeda in the Arabian Peninsula (AQAP): Based in Yemen, widely considered one of the most active and dangerous affiliates.

2. Al Qaeda in the Islamic Maghreb (AQIM): Operating primarily in the Sahara and Sahel regions of North and West Africa.
3. Al Shabaab: Operating primarily in Somalia and East Africa.
4. Jama'at Nusrat al-Islam wal-Muslimin (JNIM): A major coalition in the Sahel formed by the merger of several local groups.
5. Al Qaeda in the Indian Subcontinent (AQIS): Covering militant operations in South Asia. [1, 2, 3, 4, 5, 6, 7, 8]

Allied and Local Groups

In addition to the main branches, numerous local, historically operational, or splinter organizations have sworn varying degrees of allegiance or alliance to Al Qaeda: [1]

6. Tehrik-i-Taliban Pakistan (TTP): The Pakistani Taliban, closely allied with Al Qaeda.
7. Haqqani Network: A major insurgent group operating in Afghanistan.
8. Ansar al-Islam: Operating in Iraq and Syria, portions of which aligned with Al Qaeda.
9. Hurras al-Din: A Syria-based offshoot formed by Al Qaeda loyalists.
10. Lashkar-e-Taiba (LeT): A South Asian militant group that historically maintained close ties to Al Qaeda.
11. Islamic Jihad Union (IJU): Operating primarily in Central Asia and allied with Al Qaeda.
12. Islamic Movement of Uzbekistan (IMU): Historically aligned with Al Qaeda, though factions later split to ISIS.
13. Jaysh-e-Mohammed (JeM): A Pakistan-based group aligned with the broader jihadist network.
14. Gama'a al-Islamiyya (Islamic Group): An Egyptian militant organization that historically cooperated with Al Qaeda.
15. Abdullah Azzam Brigades: An Al Qaeda-linked group operating in the Levant and the Arabian Peninsula.
16. Ansar al-Sharia: Various factions in Yemen, Libya, and Tunisia that pledged allegiance to AQ or the global jihadist movement.
17. Ansar al-Jihad: A militant group operating in the Caucasus and Central Asia.
18. Ansar ul Islam: A Salafist group operating in Mali and Burkina Faso.
19. Al-Mourabitoun: A Sahara-based militant group that pledged to Al Qaeda before merging into JNIM.
20. Al-Mulathameen: An Algerian-based group (also known as the "Those Who Sign in Blood" battalion) that historically pledged to Al Qaeda before merging into Al-Mourabitoun. [1, 2, 3, 4, 5, 6, 7, 8, 9]

UNITED STATES CONSTITUTION

★ ★ ★

THE SUPREME LAW OF THE LAND

WHAT IS IT?

The Constitution is the fundamental law of the United States. It establishes the structure of the government, defines its powers, and protects the rights and liberties of the people.

ADOPTED

September 17, 1787

★

Ratified by the states on June 21, 1788

THE CONSTITUTION ESTABLISHES:

LEGISLATIVE BRANCH (CONGRESS)

Makes the laws.

- House of Representatives
- Senate

EXECUTIVE BRANCH (THE PRESIDENT)

Enforces the laws.

- President
- Vice President
- Cabinet

JUDICIAL BRANCH (THE COURTS)

Interprets the laws.

- Supreme Court
- Federal Courts

KEY PRINCIPLES

1. **LIMITED GOVERNMENT**
   Government is limited in its powers to protect individual liberties.
2. **SEPARATION OF POWERS**
   Divides power among three branches to prevent abuse of power.
3. **CHECKS AND BALANCES**
   Each branch can limit the powers of the others.
4. **REPRESENTATIVE GOVERNMENT**
   The people elect representatives to make decisions for them.

THE PREAMBLE

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

BILL OF RIGHTS

The first 10 amendments guarantee fundamental rights and freedoms including:

- Freedom of Speech
- Freedom of Religion
- Freedom of the Press
- Right to Bear Arms
- Right to a Fair Trial

"The Constitution is not an instrument for the government to restrain the people, it is an instrument for the people to restrain the government."

Unalienable Rights

Unalienable Rights are the Inherent, Sovereign, Natural Rights that existed before the creation of the State, and which, being antecedent to and above the State, can never be taken away, diminished, altered, or levied by the State, except by Due Process of Law. Nor can any Unalienable Right be fundamentally removed or waived by contract, whether by non-disclosure, which is fraud and unenforceable in Law, or knowingly by sufferance, which is contrary to the Spirit of the Law and prejudicial to Sovereignty.

The Original, Permanent, Unalienable Rights of every Man or Woman, include:

- The Right to Life, Freedom, Health and the Pursuit of Happiness
- The Right to Contract, or Not to Contract, which is Unlimited
- The Right to Earn a Living Income by being Compensated with Wages or a Salary in a Fair Exchange for one's Work
- The Right to Travel in the Ordinary Course of one's Life and Business
- The Right to Privacy and Confidentiality, free from Unwarranted Invasion
- The Right to Own, and Hold Property, lawfully without Trespass
- The Right to Self-Defence when threatened with Harm, Loss, or Deceit
- The Right to Due Process of Law, with Notice and Opportunity to Defend
- The Right to be Presumed Innocent, suffering No Detention or Arrest, No Search or Seizure, without Reasonable Cause
- The Right to Remain Silent when accused, to avoid Self-Incrimination
- The Right to Equality in the eyes of the Law, and to Equal Representation
- The Right to Trial by Jury, being an Impartial Panel of one's Peers
- The Right to Appeal in Law against Conviction or Sentence, or both
- The Right to Expose Knowledge necessary to one's Rights and Freedoms
- The Right to Peaceful Association, Assembly, Expression, and Protest
- The Right to Practice a Religion, and to have Beliefs, of one's choosing
- The Right to Love, and to Consensual Marriage with Children, as a Family
- The Right to Security from Abuse, Persecution, Tyranny, and War
- The Right to Refuse to Kill under command, by reason of Conscience
- The Right to Live in Peace and be left alone when Law-Abiding

Surely, the most critical failure of The People is their failure to ensure the teaching and common knowledge of their Unalienable Rights. If you do not know your Rights, you effectively have none. By the path of Ignorance, whether by Apathy or Deception, The People arrive in a State of Exploitation, Oppression, and Tyranny.

Key Insights (Extended Analysis)

- 💣 **Chemical IED Innovation Challenges Security Paradigms:** The peroxide-based explosive vests, undetectable by conventional means, represent a dangerous shift requiring new detection technologies and protocols. The remote activation and booby-trap features increase the risk to first responders and complicate neutralization efforts, demanding advanced EOD training and

equipment.

- 👥 **Two-Man vs. Five-Man Tactical Units Reflect Operational Flexibility:** Small, mobile two-man teams allow for stealth and rapid strikes, while five-man squads enable coordinated assaults and area control. Terrorist groups' ability to switch between these formations depending on mission objectives increases unpredictability and operational lethality.

- 🎯 **Strategic Target Selection Amplifies Psychological Warfare:** Targeting hospitals and schools is calculated to maximize societal trauma and media impact, undermining public confidence in government protection. The explicit intent to surpass 9/11 casualty figures signals an escalation in the ideological and psychological warfare dimension of terrorism.

- 🔥 **Use of US Military Weapons by Terrorists Undermines National Security:** The proliferation of US-origin military hardware in terrorist arsenals, largely due to abandonment in Afghanistan and black market trafficking, represents a critical security vulnerability. This complicates threat identification, as attackers may blend in using familiar weaponry, and challenges efforts to control arms proliferation.

- 🚓 **Pre-Attack Sabotage of Law Enforcement Assets Indicates Sophisticated Planning:** The tactical employment of adhesive IEDs on patrol vehicles to preempt law enforcement response is a novel threat requiring enhanced vehicle security protocols, surveillance, and intelligence sharing to detect and prevent sabotage attempts.

- 🌍 **Hybridization of Terrorist and Irregular Warfare Tactics Reflects Global Insurgency Trends:** The blending of tactics from ideological jihadist groups, state-sponsored militias, and criminal paramilitaries creates a dynamic and evolving threat landscape. Understanding these cross-influences is vital for developing effective counter-terrorism and law enforcement strategies.

- 📚 **Comprehensive Preparedness and Training Essential for Mitigation:** The detailed emergency planning framework underscores that successful mitigation depends not only on intelligence but on cooperative, well-rehearsed community response systems. Continuous assessment, inter-agency coordination, and scenario-based training are critical to withstand complex coordinated terror attacks.

Conclusion

The intelligence briefing presents a grave and multi-dimensional terror threat orchestrated by Osama Bin Laden's surviving sons, utilizing innovative explosives, sophisticated urban assault tactics, and strategic targeting of civilian and critical infrastructure. This evolving threat demands robust, adaptive countermeasures across aviation security, law enforcement preparedness, and community emergency planning. Understanding the tactical doctrines and weaponry employed by jihadist and irregular forces enhances readiness and informs strategic responses to this unprecedented homeland security challenge.

Summary

Security Policy and Protocol for Detecting and Neutralizing Al-Qaeda Type Terrorist Suicide Bomber Attackers

Introduction

The threat posed by Al-Qaeda style terrorist suicide bombers, particularly those planning Complex Coordinated Terror Attacks (CCTAs) such as the "Homeland Plot," necessitates robust security policies and operational protocols for rapid detection and neutralization. Given the evolving tactics including suicide vehicle-borne improvised explosive devices (SVBIEDs), suicide vests (SVEST), and sophisticated use of undetectable explosive materials, this policy outlines detection principles, indicators, mitigation steps, and procedures tailored to effectively prevent mass casualties and maintain public safety.
